TAKE 5 FOR SAFETY

5-MINUTE SAFETY DRILL

Risk Management: It's Your Call

Date:_____

Student:_____

Dept:_____

Station:_____

Training Code:_____

NOTES:

CHALLENGE

As cities and towns expand there is often constant construction occurring. In this scenario, you are responding to a fire in a downtown area.. You have just arrived at the scene. In addition to the fire, you become aware that the construction crew has also struck a gas pipe and a major leak is occurring. It's Your Call!

DISCUSSION

- What personnel safety issues come to mind?
- What concerns do you have about the general public and evacuation that may be necessary?
- How prepared is your department equipped to fight a fire in a populated area as well as handle a serious gas leak?
- Discuss how you would proceed with staging?
- You are the safety officer, what instructions do you have for your crew?
- What are your concerns as the incident commander?

The greatest asset of the fire service is our people; protect them!
