

CANCER PREVENTION

JUNE FLYER

Timely and continual medical screenings are essential at helping prevent and aggressively treat fire service-related cancers.

Available Resources:

NFPA 1582 Standard on Comprehensive Occupational Medical Program for Fire Departments

This standard outlines an occupational medical program that will reduce risks and provide for the health, safety, and effectiveness of firefighters operating to protect civilian life and property.

Firefighter Cancer Support Network (FCSN)

Since 2005, this nonprofit has provided assistance and one-on-one mentoring to thousands of cancer-stricken firefighters and their families. FCSN also delivers extensive firefighter cancer awareness and prevention training nationwide.

Click on the link below from FCSN and Dr. Michael Hamrock for a copy of a letter you can give to your doctor.
