

IAFC

KnowledgeNet

Connect. Collaborate. Command.

KnowledgeNet is the IAFC member on-line collaboration and connectivity portal. It allows for discussions, document sharing, and posting announcements and information. All IAFC members are automatically enrolled in KnowledgeNet. Members of the EMS Section are automatically enrolled in the EMS Section Community.

Get started using KnowledgeNet, the tool for members by members:

1. Go to <https://knowledge.iafc.org>
2. Select the blue  icon at the upper right corner of the page.
3. Login with your IAFC user name and password. If you are not sure what these are, choose the “Forgot your password? [Reset it here.](#)” link.
4. Once you are logged in, you will be taken back to the KnowledgeNet home page. If you haven't yet set up your profile, drop down the icon at the upper right corner to access your profile.

5. Here you can add information and a photo to your profile. You can also tab through options such as the frequency of emails you receive from your communities (groups you hold membership in), your discussion signature and more. **Be sure to check your community notification settings for the EMS Section to assure you receive emails.**

6. The navigation bar at the top of the home page (just below the KnowledgeNet logo) offers several quick links:

- **Communities** ▶ allows you to see all KnowledgeNet communities with the option to JOIN any that have open membership. You can also choose to see just your communities.
- **Connect with Peers** ▶ allows you to find an IAFC member or Department and send a message or request to connect with that member. This is a great way to build your peer network, especially with fellow EMS Section members.
- **Answers and Solutions** ▶ provides keyword search of topics across both discussions and the SOP/SOG libraries.
- **Engage and Share** ▶ allows you to post a message, share a file, share a YouTube video, share a web link or join a community. To post to the EMS Section community, make sure you select it from the drop-down menu (the arrow to the right of the “To” field).

The screenshot displays the IAFC KnowledgeNet website interface. At the top right, there are links for [Contact Us](#), [Code of Conduct](#), and [Return to IAFC.org](#), along with a user profile icon. The IAFC KnowledgeNet logo is prominently displayed on the left. Below the logo is a navigation bar with links for [Home](#), [Communities](#), [Connect With Peers](#), [Answers and Solutions](#), and [Engage and Share](#). A search bar is located on the right side of the navigation bar. The main content area is titled "Post a Message" and contains a form with the following fields: "To" (set to "EMS Section"), "Cross Post To" (set to "No Additional Discussions"), "From" (set to "Terry Monroe"), and "Subject" (empty). Below the form is a checkbox labeled "Yes" for "Automatically insert content preview for links". At the bottom of the form is a rich text editor toolbar with menus for "Edit", "Insert", "View", and "Styles", and various icons for text formatting, alignment, and media insertion.
