FUSION CENTER

Hazardous Materials Fusion Center

This Site: National Hazardous I

Hazardous Materials Fusion Center

The National Hazardous Materials Fusion Center is a collaborative effort between the U.S. Dept. of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) and the International Association of Fire Chiefs (IAFC).

## Responders Helping Responders

The Fusion Center will provide a secure, web-based portal to serve as a data and information network for hazmat teams; first responders; federal, state, and local agencies; and the private sector. This portal will enhance hazmat responder safety and improve decision-making for the prevention and mitigation of hazmat incidents. The Fusion Center will provide:

### Data Collection

- Hazmat incidents via a secure web portal and toll-free telephone number
- Regional Incident Survey Teams (RIST) for on-site incident data collection[ [learn more](#) ]
- Hazmat incident information gathered from other sources at local, state, and Federal levels

### Data Analysis

- Best practices, planning tools, et. al.
- After-action reports and lessons learned
- Training and equipment recommendations
- Hazmat incident pattern analysis

### Information and Data Dissemination

- Communications and information network available to all hazmat teams nationally
- Safe hazmat response recommendations
- Critical hazmat information notifications
- Product/Incident-specific training materials
- Safety recommendations for industry

# Survey Results

# Discussion Questions

- Lessons Learned
  - What went wrong, right, or both?
  - What format should lessons learned be presented?
  - How do you want to search for lessons learned? By chemical, incident type, etc.?

# Discussion Questions

- Successful Practices/Techniques
  - In what format? How long?
  - How do you search? By chemical? Action taken?

# Discussion Questions

- Incident Report Summaries
  - What type of info is on the summary?
  - How long is it?
  - How are they sorted? By region, chemical?
