

**Jeff Dulin, Senior Advisor/Chief (Ret.)**  
**International Association of Fire Chiefs/Charlotte (N. Carolina)**  
**Fire Department (USA)**

Jeff Dulin is a retired Deputy Chief from the Charlotte Fire Department after 32 years where he served as a Deputy Chief for 14 years over the Communications, Training, EM/Homeland Security and Special Operations Divisions. Jeff has spoken nationally and internationally on disaster and homeland security and emergency management issues. He served as the Deputy Operations Chief of the 2012 Democratic National Convention in Charlotte.

Jeff currently serves on three federal committees overseeing national standards for homeland security, emergency management and active shooter events and has deployed to nine federal disasters serving as a member of incident management teams. Jeff is a graduate of the Naval Postgraduate School with a master in homeland defense and national security. Jeff retired from the Charlotte Fire Department in 2015 and became the Assistant Director of the Research and Data Analysis Center for the International Association of Fire Chiefs. In this role, Jeff oversees all research projects and firefighter health and safety initiatives.

Jeff has been very active in the GIS arena developing one of the first ArcGIS viewers for the Charlotte UASI region in 2008 and has now developed the IAFC's national GIS viewer a national platform for sharing GIS data to fire departments for planning and situational awareness. Jeff oversees the National Mutual Aid System which is developing the next generation of mutual aid that uses Esri ArcGIS Online for geospatial visualization of resource data.
