CHAPTER 7
HEARING PROCEDURES

Section 1. Authority. These rules are promulgated by authority of W.S. 16-3-102, and W.S. 35-9-124.

Section 2. Definitions. The following definitions will apply under these rules:

(a) Respondent – A person(s), against whom an action has been brought to fine, revoke, or suspend his electrician’s license, or the Department in case of an appeal of an action or decision of the Chief Electrical Inspector.

(b) Department - Wyoming Department of Fire Prevention and Electrical Safety.

(c) Board - The Wyoming Electrical Board.

(d) Petitioner - The party who requests and is granted a hearing before the Board to hear an action to fine, suspend or revoke an electrician’s license or an appeal of an action or decision of the Chief Electrical Inspector.

Section 3. Purpose. These rules are established to provide a fair and efficient method for administrative hearings relative to civil penalties, suspension or revocation of licenses by the Board brought under W.S. 35-9-124.

(a) If a hearing is sought by the Department as petitioner, the respondent shall be accorded the rights as set forth below. However, when a serious threat to the public safety exists, due to code violations or other cause, the Board may shorten the time allowed between notice and hearing to not less than 5 days.

(b) When a party outside the Department requests and is granted a hearing, that party, as petitioner, shall also be accorded the rights of a respondent as set forth below. However, when the petitioner is outside the Department, in requesting the hearing he shall provide the Department with the written information required in Section 4(b) below. Also, during the hearing, the petitioner rather than the Department shall proceed first and may briefly rebut the Department's case in response.

(c) These hearing procedures shall not alter the practice of holding informal hearings whenever possible.

Section 4. Commencement of Action. Commencement of action shall be by one of the following methods:
(a) Upon an appropriate showing of violation of W.S. 35-9-101 through 35-9-130 or the Rules and Regulations, the Department may commence proceedings to fine, suspend or revoke the license of the alleged offender or take other disciplinary action. In a Petition to fine, suspend or revoke a license, the Department shall notify the respondent of the:

(i) The legal authority and jurisdiction under which the hearing is to be held;

(ii) The particular Section of the statutes and rules, regulations or codes involved; and

(iii) A short and plain statement of the violations alleged. No answer is required, and at the hearing, the respondent may appear and show why he should not be fined or his license should not be suspended or revoked.

(b) Any party aggrieved by an action or decision of the Chief Electrical Inspector made pursuant to W.S. 35-9-124 may appeal the action or decision by filing a written appeal at the office of the Chief Electrical Inspector within 30 days from the date of action or decision. The written appeal shall contain:

(i) A heading in the words: "Electrical Board, State of Wyoming."

(ii) A caption reading: "Appeal of __________,", giving the names of all respondents participating in the appeal.

(iii) A brief statement setting forth the legal interest of each of the appellants in the decision of the Chief Electrical Inspector involved in the order.

(iv) A brief statement of the specific order or action protested, in ordinary and concise language, together with any material facts claimed to support the contentions of the appellant.

(v) A brief statement of the relief sought, in ordinary and concise language, and the reasons why it is claimed that the protested order or action should be reversed, modified or otherwise set aside.

(vi) The signatures of all parties named as appellants, and their official mailing addresses.

(vii) The verification (by declaration under penalty of perjury) of at least one appellant as to the truth of the matters stated in the appeal.
Section 5. **Time and Place of Hearing.** Time and place of hearings shall be determined as follows:

(a) Upon receiving a Petition or notice of an appeal, the Board shall set the matter for hearing. The hearing may be held no less than twenty (20) days after service of the Petition upon the respondent, so that he may have adequate time for preparation. Upon motion and for good cause, the hearing may be postponed by the Board until a later date. However, when a serious threat to the public safety exists, due to code violations or other cause, the Board may shorten the time allowed between notice and hearing to not less than five days.

(b) As soon as practical after receiving the written Petition or notice of appeal, the Board shall fix a date, time, and place for the hearing of the matter by the Board. Such date shall be not less than five (5) days nor more than ninety (90) days from the date the appeal was filed with the Board.

(c) Hearings shall be conducted in a location determined by the Board.

Section 6. **Service.** The notice of hearing by the Board shall be served personally or by mail, to the place of business of the petitioner and respondent, or to the most recent residence address of the respondent filed with the Department, or to the respondent at his address shown on the appeal.

Section 7. **Matters to be Considered.** Only those matters or issues specifically raised by the respondent shall be considered in the hearing of an appeal.

Section 8. **Enforcement to be Stayed.** Except for orders to abate or vacate immediate hazards, used under W.S. 35-9-116, enforcement of any notice and order of the Chief Electrical Inspector shall be stayed while the matter is before the Board.

If a hearing examiner is appointed, the hearing examiner shall be responsible for scheduling and setting the matter for hearing as specified in Section 5 and 6 above. The examiner hearing the case shall exercise all powers relating to the conduct of hearings until it is submitted by him to the Board for final decision.

No attorney from any other state shall be entitled to enter his appearance in, prosecute or defend any action or proceeding pending before the Board unless he is either licensed to practice in the State of Wyoming or associated with a Wyoming licensed attorney. The filing of a pleading or other appearance by an attorney constitutes his appearance for the party for whom made. In accordance with the Wyoming Administrative Procedures Act.

(a) Any person licensed as a physician and surgeon under the laws of the state of Wyoming, or any other person, who in good faith renders emergency care or assistance without compensation at the place of an emergency or accident, is not liable for any civil damages for acts or omissions in good faith.

(b) Persons or organizations operating volunteer ambulances or rescue vehicles supported by public or private funds, staffed by unpaid volunteers, and which make no charge, or charge an incidental service or user fee, for services rendered during medical emergencies, and the unpaid volunteers who staff ambulances and rescue vehicles are not liable for any civil damages for acts or omissions in good faith in furnishing emergency medical services. This immunity does not apply to acts or omissions constituting gross negligence or willful or wanton misconduct. For purposes of this section, "unpaid volunteers" means persons who either receive incidental remuneration on a per call basis or receive no more than one thousand dollars ($1,000.00) annually for volunteer ambulance and rescue activities. The immunity provided by this subsection shall extend to a physician while serving in his capacity as medical director of any ambulance service, to hospitals and hospital employees for activities directly related to providing clinical training as part of an emergency medical service class approved by the department of health, and to students while participating in emergency medical services training approved by the department of health. If an unpaid volunteer's, medical director's, hospital's or trainee's acts or omissions are subject to the provisions of the Wyoming Governmental Claims Act, immunity under this section is waived to the extent of the maximum liability provided under W.S. 1-39-118.

(c) Any person who provides assistance or advice without compensation other than reimbursement of out-of-pocket expenses in mitigating or attempting to mitigate the
effects of an actual or threatened discharge of hazardous materials, or in preventing, cleaning up or disposing of or in attempting to prevent, clean up or dispose of any discharge of hazardous materials, is not liable for any civil damages for acts or omissions in good faith in providing the assistance or advice. This immunity does not apply to acts or omissions constituting gross negligence or willful or wanton misconduct. As used in this subsection:

(i) "Discharge" includes leakage, seepage or other release;

(ii) "Hazardous materials" includes all materials and substances which are now or hereafter designated or defined as hazardous by any state or federal law or by the regulations of any state or federal government agency.

1-1-125. Immunity for volunteers; volunteer firefighters.

(a) As used in this section:

(i) "Compensation" does not include actual and necessary expenses that are incurred by a volunteer in connection with the services that the volunteer performs for a nonprofit organization and that are reimbursed to the volunteer or otherwise paid nor does it include any incidental personal privileges received by volunteers for their services;

(ii) "Nonprofit organization" means those nonprofit organizations exempt from federal income tax pursuant to section 501(c) of the Internal Revenue Code;

(iii) "Volunteer" means an officer, director, trustee or other person who performs services for a nonprofit organization but does not receive compensation, either directly or indirectly, for those services, or a volunteer firefighter who performs services for a volunteer fire department under W.S. 35-9-601(h) whether or not he receives compensation or a pension.

(b) Except as provided in subsection (c) of this section, a volunteer who provides services or performs duties on behalf of a nonprofit organization or a volunteer fire department is personally immune from civil liability for any act or omission resulting in damage or injury if at the time of the act or omission:
(i) The person was acting within the scope of his duties as a volunteer for the nonprofit organization or volunteer fire department; and

(ii) The act or omission did not constitute willful or wanton misconduct or gross negligence.

(c) This section does not grant immunity to any person causing damage as a result of the negligent operation of a motor vehicle.

(d) In any suit against a nonprofit organization or a volunteer fire department for civil damages based upon the negligent act or omission of a volunteer, proof of the act or omission shall be sufficient to establish the responsibility of the organization or department under the doctrine of respondeat superior, notwithstanding the immunity granted to the volunteer with respect to any act or omission included under subsection (b) of this section.

CHAPTER 39 - GOVERNMENTAL CLAIMS

This act shall be known and cited as the "Wyoming Governmental Claims Act".

(a) The Wyoming legislature recognizes the inherently unfair and inequitable results which occur in the strict application of the doctrine of governmental immunity and is cognizant of the Wyoming Supreme Court decision of Oroz v. Board of County Commissioners 575 P. 2d 1155 (1978). It is further recognized that the state and its political subdivisions as trustees of public revenues are constituted to serve the inhabitants of the state of Wyoming and furnish certain services not available through private parties and, in the case of the state, state revenues may only be expended upon legislative appropriation. This act is adopted by the legislature to balance the respective equities between persons injured by governmental actions and the taxpayers of the state of Wyoming whose revenues are utilized by governmental entities on behalf of those taxpayers. This act is intended to retain any common law defenses which a defendant may have by virtue of decisions from this or other jurisdictions.
(b) In the case of the state, this act abolishes all judicially created categories such as "governmental" or "proprietary" functions and "discretionary" or "ministerial" acts previously used by the courts to determine immunity or liability. This act does not impose nor allow the imposition of strict liability for acts of governmental entities or public employees.

(a) As used in this act:

(i) "Governmental entity" means the state, University of Wyoming or any local government;

(ii) "Local government" means cities and towns, counties, school districts, joint powers boards, airport boards, public corporations, community college districts, special districts and their governing bodies, all political subdivisions of the state, and their agencies, instrumentalities and institutions;

(iii) "Peace officer" means as defined by W.S. 7-2-101, but does not include those officers defined by W.S. 7-2-101(a)(iv)(K) or those officers defined by W.S. 7-2-101(a)(iv)(M) unless otherwise provided in the applicable mutual aid agreement;

(iv) "Public employee":

(A) Means any officer, employee or servant of a governmental entity, including elected or appointed officials, peace officers and persons acting on behalf or in service of a governmental entity in any official capacity, whether with or without compensation;

(B) Does not include an independent contractor, except as provided in subparagraph (C) of this paragraph, or a judicial officer exercising the authority vested in him;

(C) Includes contract physicians, physician assistants, nurses, optometrists and dentists in the course of providing contract services for state institutions or county jails;
(D) Includes individuals engaged in search and rescue operations under the coordination of a county sheriff pursuant to W.S. 18-3-609(a)(iii) and the provisions of W.S. 1-39-112 shall apply for purposes of damages resulting from bodily injury, wrongful death or property damage caused by their negligence while acting within the scope of their duties;

(E) Includes any volunteer physician providing medical services under W.S. 9-2-103(a)(i)(C).

(v) "Scope of duties" means performing any duties which a governmental entity requests, requires or authorizes a public employee to perform regardless of the time and place of performance;

(vi) "State" or "state agency" means the state of Wyoming or any of its branches, agencies, departments, boards, instrumentalities or institutions;

(vii) "Year 2000 date change" means the change from calendar year 1999 AD to 2000 AD and associated date computations including the proper recognition of the year 2000 as a leap year;

(viii) "This act" means W.S. 1-39-101 through 1-39-121.

1-39-104. Granting immunity from tort liability; liability on contracts; exceptions.

(a) A governmental entity and its public employees while acting within the scope of duties are granted immunity from liability for any tort except as provided by W.S. 1-39-105 through 1-39-112 and limited by W.S. 1-39-121. Any immunity in actions based on a contract entered into by a governmental entity is waived except to the extent provided by the contract if the contract was within the powers granted to the entity and was properly executed and except as provided in W.S. 1-39-121. The claims procedures of W.S. 1-39-113 apply to contractual claims against governmental entities.

(b) When liability is alleged against any public employee, if the governmental entity determines he was acting within the scope of his duty, whether or not alleged
to have been committed maliciously or fraudulently, the governmental entity shall provide a defense at its expense.

(c) A governmental entity shall assume and pay a judgment entered under this act against any of its public employees, provided:

(i) The act or omission upon which the claim is based has been determined by a court or jury to be within the public employee's scope of duties;

(ii) The payment for the judgment shall not exceed the limits provided by W.S. 1-39-118; and

(iii) All appropriate appeals from the judgment have been exhausted or the time has expired when appeals may be taken.

(d) A governmental entity shall assume and pay settlements of claims under this act against its public employees in accordance with W.S. 1-39-115, 1-41-106 or 1-42-204.

A governmental entity is liable for damages resulting from bodily injury, wrongful death or property damage caused by the negligence of public employees while acting within the scope of their duties in the operation of any motor vehicle, aircraft or watercraft.

1-39-106. Liability; buildings, recreation areas and public parks.

A governmental entity is liable for damages resulting from bodily injury, wrongful death or property damage caused by the negligence of public employees while acting within the scope of their duties in the operation or maintenance of any building, recreation area or public park.

(a) A governmental entity is liable for damages resulting from bodily injury, wrongful death or property damage caused by the negligence of public employees while
acting within the scope of their duties in the operation of airports.

(b) The liability imposed pursuant to subsection (a) of this section does not include liability for damages due to the existence of any condition arising out of compliance with any federal or state law or regulation governing the use and operation of airports.

(a) A governmental entity is liable for damages resulting from bodily injury, wrongful death or property damage caused by the negligence of public employees while acting within the scope of their duties in the operation of public utilities and services including gas, electricity, water, solid or liquid waste collection or disposal, heating and ground transportation.

(b) The liability imposed pursuant to subsection (a) of this section does not include liability for damages resulting from bodily injury, wrongful death or property damage caused by a failure to provide an adequate supply of gas, water, electricity or services as described in subsection (a) of this section.

A governmental entity is liable for damages resulting from bodily injury, wrongful death or property damage caused by the negligence of public employees while acting within the scope of their duties in the operation of any public hospital or in providing public outpatient health care.

1-39-110. Liability; health care providers.

(a) A governmental entity is liable for damages resulting from bodily injury, wrongful death or property damage caused by the negligence of health care providers who are employees of the governmental entity, including contract physicians, physician assistants, nurses, optometrists and dentists who are providing a service for state institutions or county jails, while acting within the scope of their duties.

(b) Notwithstanding W.S. 1-39-118(a), for claims under this section against a physician, physician assistant,
nurse, optometrist or dentist employed by a governmental entity based upon an act, error or omission occurring on or after May 1, 1988, the liability of a governmental entity shall not exceed the sum of one million dollars ($1,000,000.00) to any claimant for any number of claims arising out of a single transaction or occurrence nor exceed the sum of one million dollars ($1,000,000.00) for all claims of all claimants arising out of a single transaction or occurrence.

1-39-112. Liability; peace officers.

A governmental entity is liable for damages resulting from tortious conduct of peace officers while acting within the scope of their duties.

(a) No action shall be brought under this act against a governmental entity unless the claim upon which the action is based is presented to the entity as an itemized statement in writing within two (2) years of the date of the alleged act, error or omission, except that a cause of action may be instituted not more than two (2) years after discovery of the alleged act, error or omission, if the claimant can establish that the alleged act, error or omission was:

(i) Not reasonably discoverable within a two (2) year period; or

(ii) The claimant failed to discover the alleged act, error or omission within the two (2) year period despite the exercise of due diligence.

(b) The claim shall state:

(i) The time, place and circumstances of the alleged loss or injury including the name of the public employee involved, if known;

(ii) The name, address and residence of the claimant and his representative or attorney, if any; and
(iii) The amount of compensation or other relief demanded.

(c) All claims against the state shall be presented to the general services division of the department of administration and information. Claims against any other governmental entity shall be filed at the business office of that entity. In the case of claims against local governments the claim submitted need not be acted upon by the entity prior to suit.

Except as otherwise provided, actions against a governmental entity or a public employee acting within the scope of his duties for torts occurring after June 30, 1979 which are subject to this act shall be forever barred unless commenced within one (1) year after the date the claim is filed pursuant to W.S. 1-39-113. In the case of a minor seven (7) years of age or younger, actions against a governmental entity or public employee acting within the scope of his duties for torts occurring after June 30, 1979 which are subject to this act are forever barred unless commenced within two (2) years after occurrence or until his eighth birthday, whichever period is greater. In no case shall the statute of limitations provided in this section be longer than any other applicable statute of limitations. In the absence of applicable insurance coverage, if the claim was properly filed, the statute shall be tolled forty-five (45) days after a decision by the entity, if the decision was not made and mailed to the claimant within the statutory time limitation otherwise provided herein.

(a) Upon receipt of a claim against the state which is covered by insurance, the general services division of the department of administration and information shall send the claim to the insurance company insuring the risk involved for investigation, adjustment, settlement and payment.

(b) A claim shall be settled only if the damage claimed was caused by such negligence on the part of the state or its public employees as might entitle the claimant to a judgment.
(c) Any person whose claim is rejected or who is unsatisfied with the settlement offered may commence an action in the appropriate court.

(d) Claims under this act which are not covered by insurance may be settled as provided by W.S. 1-41-106 or 1-42-204.

(a) The remedy against a governmental entity as provided by this act is exclusive, and no other claim, civil action or proceeding for damages, by reason of the same transaction or occurrence which was the subject matter of the original claim, civil action or proceeding may be brought against the governmental entity. No rights of a governmental entity to contribution, indemnity or subrogation shall be impaired by this section. Nothing in this section prohibits any proceedings for mandamus, prohibition, habeas corpus, injunction or quo warranto.

(b) The judgment in an action or a settlement under this act constitutes a complete bar to any action by the claimant, by reason of the same transaction or occurrence which was the subject matter of the original suit or claim, against the governmental entity or the public employee whose negligence gave rise to the claim.

1-39-117. Jurisdiction; appeals; venue; trial by jury; liability insurance.

(a) Original and exclusive jurisdiction for any claim under this act shall be in the district courts of Wyoming. Appeals may be taken as provided by law.

(b) Venue for any claim against the state or its public employees pursuant to this act shall be in the county in which the public employee resides or the cause of action arose or in Laramie county. Venue for all other claims pursuant to this act shall be in the county in which the defendant resides or in which the principal office of the governmental entity is located.

(c) The right to a trial by jury is preserved.
(d) If a governmental entity has elected to purchase liability insurance under this act, the court, in a trial without a jury, may be advised of the insurance.

1-39-118. Maximum liability; insurance authorized.

(a) Except as provided in subsection (b) of this section, in any action under this act, the liability of the governmental entity, including a public employee while acting within the scope of his duties, shall not exceed:

(i) The sum of two hundred fifty thousand dollars ($250,000.00) to any claimant for any number of claims arising out of a single transaction or occurrence; or

(ii) The sum of five hundred thousand dollars ($500,000.00) for all claims of all claimants arising out of a single transaction or occurrence.

(b) A governmental entity is authorized to purchase liability insurance coverage covering any acts or risks including all or any portion of the risks provided under this act. Purchase of liability insurance coverage shall extend the governmental entity's liability as follows:

The proceeds of any civil penalty imposed by a district court under any ordinance adopted pursuant to this paragraph shall be deposited in the general fund of the city or town.
(xlvi) By ordinance, prohibit or authorize and regulate the operation of golf carts as defined under W.S. 31-5-102(a)(lxii) on public streets and roadways within the corporate boundaries of the city or town;

(xlvii) Repealed By Laws 1999, ch. 22, 2.

As used in this paragraph, negotiable paper means money orders, paper arising from the use of a lender credit card as defined in W.S. 40-14-140(a)(ix), checks and drafts, including, without limitation, sales drafts and checks and drafts signed by a holder of a lender credit card issued by a bank maintaining a revolving loan account as defined in W.S. 40-14-308, for lender credit card holders. The acceptance of negotiable paper by the governing body under this subsection shall be in accordance with and subject to the same terms and conditions provided by W.S. 18-3-505. Any fees assessed for processing a credit card payment may be borne by the governing body of the city or town or person tendering payment. Any fees assessed for processing a credit card payment collected on behalf of the state shall be borne by the governing body of the city or town or person tendering payment and not by the state;

(1) Appoint special municipal officers, who are not certified as peace officers, to issue citations to individuals for the limited purpose of enforcing ordinances, resolutions and regulations in the areas of animal control, parking and municipal code enforcement. (D) Shall not be required to carry a firearm;

(E) Shall not have the power of arrest;

(F) Shall not be issued a peace officer's badge;

and

(G) Shall not represent themselves to be peace officers.

(b) Any franchise granted pursuant to subparagraph (a)(xxxiii)(C) of this section is subject to the following:

(i) The franchise agreement shall specify who is responsible for deliverability;

(ii) The distribution system shall continue to be a public utility whose charges are regulated by the public service commission. The charges shall reflect the reasonable non-gas costs subject to management audit as the public service commission deems necessary plus a reasonable return on investment;

(iii) Any city or town or its authorized representative shall act as an agent for any person served by the system in negotiating terms and conditions for the supply of natural gas to that person, and the franchisee distribution system shall accept for delivery to any person served by the system, natural gas from any supplier;

(iv) The public service commission shall designate a place or places in the vicinity of the distribution system for the acceptance of natural gas not supplied by franchisee;

(v) The public service commission shall adopt and enforce minimum quality standards for all gas delivered to the distribution system. These standards shall reflect the practices of the operators of the distribution system unless good cause is shown for different standards. The standards shall be designed to facilitate the commingling of gas from different suppliers;

(vi) As soon as there are at least two (2) suppliers offering natural gas to all customers served by the franchisee and as soon as the additional supplier or suppliers are capable of delivering gas in at least one-
third (1/3) of the volume required by the entire distribution system provided that the public service commission finds that the suppliers own or control, and have committed to guaranteed delivery, reserves of natural gas sufficient to supply ten (10) years of demand at that level, then all persons supplying gas shall have the authority to set their own prices. The proposed supplier has the burden of proving adequate reserves and deliverability. The Wyoming oil and gas commission shall report to the public service commission on the adequacy and deliverability when a utility gas supply is proposed to be displaced under this act;

(vii) Subject to the availability of pipeline capacity and the requirements of federal law and regulations the public service commission may, after notice and hearing if necessary, designate any point in the state on a gas pipeline operated for the purpose of delivering gas to the distribution system or its parent or subsidiary company as a point for receipt of gas to the system and regulate the charges for shipping gas from that point to the system. If a pipeline has insufficient capacity the public service commission consistent with W.S. 30-5-125 may require it to accept gas that has a lower price to the consumer in preference to higher price gas. The public service commission may impose any conditions or requirements pursuant to this subsection that are necessary to protect the public health, safety and welfare, to ensure the efficient operation of the natural gas distribution and supply system and to ensure the lowest possible price to retail customers, including but not limited to proper assignment of costs of connecting suppliers to the system;

(viii) When a city renews or grants a franchise for the supply of natural gas under subparagraph (a)(xxxiii)(C) of this section, the public service commission may require that the distribution of gas in surrounding unincorporated areas also be made subject to the terms of the same franchise;

(ix) If a distribution system has only one (1) supplier of natural gas all prices charged in that franchise are subject to W.S. 37-2-121 and 37-2-122;

(x) All suppliers of gas to the distribution system shall annually report to the public service commission the annual consumption of natural gas by their customers of
record at the date of the report and their natural gas reserves. If their natural gas reserves are less than a five (5) year supply, the public service commission may forbid any supplier from serving new customers until the reserves are equal to a five (5) year supply for all customers;

(xi) Any supplier entering the system under this subsection is liable for injuries, damages or other losses to the extent to which the injuries, damages or other losses are proximately caused by the supplier's operations within the system and are due to failure of the supplier to exercise that standard of care which a reasonable, prudent person would exercise under the same or similar circumstances to avoid an undue risk of harm or are due to the supplier's failure to deliver contracted amounts of natural gas.

(c) Any provision in a gas purchase contract which contains or creates an indefinite escalator clause, otherwise known as a "favored nation treaty" provision, is contrary to the public policy of the state and is void and unenforceable if:

(i) The contract is to sell gas to the holders of a municipality franchise which supplies retail customers in the state;

(ii) The contract provides for the sale in the state of gas produced within the state;

(iii) The contract gas price is in excess of the general market price which would otherwise exist in the absence of the indefinite escalator clause; and

(iv) The higher price resulting from the application of the escalator clause is not required by any enforceable provision of statutes or regulations enacted or adopted pursuant to the Natural Gas Policy Act of 1978 or other appropriate statutes and regulations of the United States.

(d) Before the governing body of a city or town enters into an agreement to borrow money from the United States of America or from the state of Wyoming, or from any subdivision, agency or department of either, to fund a public improvement project to be repaid solely from revenues generated by the enterprise with which the
financed project is associated, the proposal to enter into the loan agreement shall be submitted to and approved by the electors of the city or town in the same manner and pursuant to the same procedures as provided for bond issues under the Political Subdivision Bond Election Law, if the total amount to be borrowed for the project exceeds the greater of:

(i) Five million dollars ($5,000,000.00); or

(ii) An amount calculated by multiplying the number of individuals to be served by the proposed public improvement project times one thousand two hundred dollars ($1,200.00).

15-1-120. Effect of governmental change on territorial limits.

If any city or town changes its form of government, the territorial limits and all rights, powers and property under the former organization shall remain the same under the new organization. No existing right or liability, or suit or prosecution may be affected by a change in the form of government unless otherwise provided by law.

15-1-121. Fire protection agreements authorized; limitation; liability.

(a) Every city, town and county may enter into negotiations with each other or with the board of directors of a fire district for the purpose of:

(i) Establishing a mutual aid agreement for fire protection; or

(ii) Executing a contract in which the city, town or county agrees unilaterally to provide fire protection for another city, town or fire district upon conditions and for consideration as may be agreed upon by the contracting parties.

(b) At no time under any agreement or contract executed pursuant to this section shall any city, town, county or fire district entirely deplete its fire defenses in providing assistance unless specifically authorized to do so by its governing body.
(c) No city or town is liable for damages to persons or property resulting from the operation or presence of fire fighting equipment outside the corporate limits pursuant to an agreement or contract under this section.

(d) Entry into an agreement or contract pursuant to this section does not create a new or reorganized taxing entity as provided in W.S. 39-13-104(m).

(ii) Is a notoriously bad character;

(iii) Is unable to read and write the English language; or

(iv) Lacks ordinary physical courage.

(b) A fire department may, as a condition for a position with the department, require applicants to submit to fingerprinting in order to obtain state and national criminal history record information.

ARTICLE 2 - FIREMEN PENSIONS AND DEATH BENEFITS

15-5-201. Definitions.

(a) As used in this article:

(i) Repealed by Laws 1981, ch. 41, 3.

(ii) "Benefit unit" means each of the following:
(A) Each paid fireman;

(B) Each person receiving a monthly pension under W.S. 15-5-204;

(C) Each person receiving a disability pension under W.S. 15-5-204;

(D) Each account of a deceased or retired fireman from which monthly pension payments are being made to any person under W.S. 15-5-205 and 15-5-206.

(iii) "Compensation Act" means the Wyoming Worker's Compensation Act, W.S. 27-14-101 through 27-14-307;

(iv) "Fireman first class" means the highest salary grade which a fireman can obtain within his department without any promotion in rank. The term specifically excludes chiefs, officers, engineers, fire equipment operators, secretaries, mechanics, inspectors and all other specialized grades, ratings and ranks;

(vii) "Fiscal year" means the fiscal year beginning July 1 and ending June 30;

(viii) "Injured, disabled or killed in the line of duty" means that a paid or volunteer fireman is injured or disabled when he meets with bodily or mental injury while actually engaged in the repair, upkeep or care of fire apparatus, or in the performance of duties prescribed in the maintenance and operation of a fire department;

(ix) "Maximum monthly salary of a fireman first class" means the gross monthly salary of a fireman first class, including the greatest longevity or additional monthly salary increase for length of service, as established by the city, town or county which employed the retired, disabled or deceased paid fireman, and including contributions required by W.S. 15-5-203;

(x) "Minimum annual cash requirement of the account" means the amount of cash needed to meet the known required disbursements from the firemen's pension account during the
upcoming fiscal year, reduced by the anticipated cash account balance of the firemen's pension account on hand at the end of the current fiscal year;

(xi) "Paid fireman" means an individual regularly employed and paid by any city, town, county or fire protection district for devoting his entire time of employment to the care, operation and requirements of a regularly constituted fire department;

(xii) Repealed by Laws 1981, ch. 41, 3.

(xiii) "Twenty years active service" means that an individual's principal means of livelihood for twenty (20) years has been employment by one (1) or more cities, towns, counties or fire protection districts as a member of a regularly constituted fire department and that the individual has been carried on the payrolls thereof for that period of time;

(xiv) "Volunteer fireman" means an individual who devotes less than his entire time of employment to, but who is carried on the rolls of a regularly constituted fire department, the members of which may be partly paid and partly volunteer. Payment of compensation for services actually rendered by enrolled volunteers does not take them out of this classification. Any individual who volunteers assistance but is not regularly enrolled as a fireman is not a volunteer within the meaning of this article;

(xv) "Board" means the retirement board created by W.S. 9-3-404;

(xvi) "Employer" means any incorporated municipality, county or fire protection district offering fire protection or public safety services employing one (1) or more members.

15-5-202. Pension account; creation; administration; donations; investment; dual participation prohibited.

(a) There is created a firemen's pension account for the purpose of paying the awards, benefits and pensions under the provisions of this article and article 2 of this chapter. The account shall be administered by the board through the director. The board has full custody and control of the account with full power over its
administration. The director of the state department of audit or his designee shall make a biennial audit of the account and the receipts thereto and disbursements therefrom and report his findings to the governor and the legislature. The account shall be administered without liability on the part of the state beyond the amount of the funds. All expenses of administration shall be paid from the account. Effective July 1, 1981 the firemen's contingency account is abolished and all monies in that account as of that date shall be credited to the firemen's pension account.

(b) Repealed by Laws 1997, ch. 69, 2.

(c) The board is empowered to:

(i) Receive and credit to the account any and all gifts, donations and contributions as may be made by individuals and organizations for the benefit of the account;

(ii) Invest all account monies not immediately necessary for disbursements in any of the securities and in any amounts authorized by W.S. 9-3-408.

(d) No paid fireman shall participate as a member of the firemen's pension account established under this article and as a member of the volunteer firemen's pension account established under W.S. 35-9-601 through 35-9-615 if participation is based upon covered service with the same fire department.

15-5-203. Firemen and employer contributions; imposition at discretion of board; amounts; how and when collected, suspended and reinstated.

(a) In addition to the amount appropriated to the firemen's pension account by W.S. 15-5-202, every paid fireman may, at the discretion of the board, be assessed not more than eight percent (8%) of his gross monthly salary for the use and benefit of the account, up to the maximum monthly salary of a fireman first class. Any salary assessment imposed under this subsection shall be withheld monthly from his salary by the treasurer or other disbursing officer of the city, town or county.

(b) Repealed by Laws 1981, ch. 41, 3.
(c) Repealed by Laws 1981, ch. 41, 3.

(d) Upon a determination by the board in accordance with subsection (g) of this section, every employer shall pay into the account for each paid fireman it employs an amount not to exceed twenty-one percent (21%) of the salary of a fireman first class. Any contributions imposed under this subsection, together with the paid firemen's contributions, shall be transferred and credited to the account in a manner as the board directs. If the contributions are not transferred to the board when due, they may be recovered, together with interest at the rate of ten percent (10%) per annum in an action brought for that purpose in the district court for the county in which the employer has its principal office.

(e) From and after July 1, 1983 the contributions required by subsection (a) of this section shall be paid by the employer for paid firemen covered under this article in order to be treated as employer contributions for the sole purpose of determining tax treatment under the United States internal revenue code.

(f) The contributions under subsection (e) of this section shall be paid from the source of funds which is used in paying salary to paid firemen covered under this article. The employer may pay these contributions by a reduction in cash salary of the paid firemen or by an offset against a future salary increase, or by a combination of a reduction in salary and an offset against a future salary increase, provided:

(i) No such salary reduction or offset, or combination thereof, shall exceed the percentage amount actually being deducted from an employee's salary for contributions to the firemen's pension account as of July 1, 1983; and

(ii) Any employer may pay any amount of an employee's share of retirement contributions without a salary reduction or offset, or combination thereof.

(g) Based upon findings and recommendations of the Wyoming retirement system actuary, the board shall determine if contributions under subsections (a) and (d) of this section are necessary for the continued payment of benefits under this article. Any contributions imposed by
the board upon paid firemen and employers shall bear the ratio provided for the maximum contribution rates authorized under subsections (a) and (d) of this section. If contributions are reinstated at any time following suspension of contributions, the board shall provide notice of reinstated contributions to firemen and employers not less than six (6) months prior to the date of imposition.

15-5-204. Pensions; amounts; qualifications; when paid; disability benefits; disqualifications; examinations; disallowance; actions; adjustment.

(a) Any person qualifying may retire from active service and receive a monthly pension of seventy-five percent (75%) of the maximum monthly salary of a fireman first class. Any benefit increases which may occur shall not subsequently be withdrawn. This benefit accrues to any paid fireman who has completed twenty (20) years of active service in regularly constituted fire departments of any cities, towns, counties or fire protection districts and to any paid fireman suffering from a mental or physical disability rendering him unfit for active duty. Any paid fireman covered under this article may continue service beyond twenty (20) years and receive an additional benefit of one and one-half percent (1.5%) of the maximum salary of a fireman first class for each year of service beyond twenty (20) years.

(b) Any fireman with less than ten (10) years of service upon terminating his employment for any reason shall receive in a lump sum a refund of all the money he has contributed to the firemen's pension account. Refund of such contributions extinguishes all rights to any benefits under this article.

(c) After ten (10) years as a full time paid fireman, any fireman upon terminating his employment for any reason may have his choice of:

(i) A refund, in a lump sum, of all the money he has contributed into the firemen's pension account, less one-half percent (1/2%) for bookkeeping costs; or

(ii) Upon the twentieth anniversary of the date of his employment as a full time paid fireman he may draw a monthly pension computed as follows:
Number of years service x 75% of the maximum monthly salary of a fireman first class

20

(d) No fireman is entitled to draw a disability pension if the primary cause of the mental or physical disability which renders him unfit for active duty is alcoholism, substance abuse or addiction or an injury incurred as a result of the commission of a crime of a voluntary nature, or a mental or physical condition which existed at the time of his employment.

(e) The board may require firemen applying for or drawing a disability pension to submit periodically to a physical or mental examination by a physician it selects and to furnish relevant information it requests. If the physician's report, or other evidence available to the board, shows that the fireman is not qualified for the disability pension, or that he is fit for active duty, the board shall disallow or discontinue the payment of the monthly disability pension. Examining physicians selected by the board shall be paid from the account in accordance with existing worker's compensation schedules for examinations.

(f) Any applicant or beneficiary of the firemen's pension account aggrieved by a disallowance or discontinuance of pension benefits has a right to commence an action in the district court of the county in which the applicant resides, naming the board, as custodian of the firemen's pension account, as the party defendant, to have his rights to pension benefits determined before a judge of the district court.

(g) Any pension benefit, survivor benefit or disability benefit received by an eligible individual under this article, and the fireman for whom the benefit is generated has been retired for a period of not less than one (1) year, shall be increased each year by at least three percent (3%). In the event the most current actuarial valuation indicates the market value of assets is greater than one hundred fifteen percent (115%) of the actuarial value of liabilities, the board may increase the benefit by
an amount determined affordable by the actuary, but in no case shall the total increase be greater than five percent (5%) of the benefit. Any increase under this subsection shall be added to the pension benefit, survivor benefit or disability benefit and compounded for purposes of determining the total benefit amount in subsequent years.

15-5-205. Death benefits to surviving spouse; amounts; limitations; length of payments.

(a) If any paid fireman dies from any cause, the board shall pay to the surviving spouse a monthly pension equal to the greater of the monthly benefit payable to the fireman under W.S. 15-5-204 or the monthly benefit payable under W.S. 15-5-204(a) for twenty (20) years of active service. Benefits payable under this subsection shall be paid out of the firemen's pension account and shall continue for the spouse's life.

(b) If the fireman is a retired fireman drawing his pension at the time of his death, the board shall pay to the surviving spouse a monthly pension equal to the monthly benefit payable to the fireman under W.S. 15-5-204. Benefits payable under this subsection shall be paid out of the firemen's pension account and shall continue for the spouse's life.

(c) Repealed By Laws 2001, Ch. 36, 2.

15-5-206. Death benefits to dependent father and mother; amounts.

If any paid fireman dies, leaving no surviving spouse or children, but leaves a surviving dependent father or mother or both, the board shall pay to the mother if there is no father, to the father if there is no mother or to both, out of the firemen's pension account, a monthly amount equal to the pension the retired fireman was receiving if retired at the time of his death, or if in active service at the time of death, a monthly amount equal to the greater of the monthly benefit payable to the fireman under W.S. 15-2-204 at the time of his death or the monthly benefit payable under W.S. 15-2-204(a) for twenty (20) years of active service. If either the surviving mother or father dies after the payments have started, the board shall pay to the surviving parent the full amount as computed under this section.
15-5-207. Application for benefits; statement filed; determination; review; appeal.

If any fireman, his surviving spouse, dependent children or dependent parents are entitled to any pension or benefits under this article, the fireman, or in the event of his death, the chief of the fire department of which he was a member, or some other proper person, shall apply by filing a complete and concise statement of the facts necessary to entitle the fireman or the fireman's surviving spouse or children or parents to the benefits or pension. The application shall be filed with the board upon forms it provides. The board is empowered to investigate the application and determine whether or not it should be granted and to hear evidence as to the justice of the application, or to require and receive affidavits as to the truth of the statements made in the application. If the application is refused, the matter may be taken, by petition, before the district court of the county in which the applicant resides. The court shall notify the board of the date set for hearing. The decision of the district court is binding upon the board and applicant unless appealed from according to the procedure provided under the Worker's Compensation Act.

15-5-208. Pension application; payments thereafter; when benefits suspended.

Application for pension may be made prior to actual retirement upon statement of the intention to retire, but payment shall not begin until the applicant has actually retired and his name is stricken from the payroll of the city or town. No fireman or any of his survivors is entitled to any of the benefits of this article while the fireman or his survivors are receiving payments under the Worker's Compensation Act, but when the payments under the Worker's Compensation Act terminate, his or their rights to the benefits of this article attach. Any fireman who is entitled to the benefits of insurance paid for from the general fund of any city or town is not entitled to any of the benefits of this article until the insurance payments cease.

15-5-209. Payments; when and how made; protections; nonassignability; qualified domestic relations order.
(a) Payments made under this article shall be made to the beneficiaries on or before the fifth day of each month and shall be made by voucher approved by the board or its designee drawn against the firemen's pension account and paid by the board out of the account. No payments made under this article are subject to judgment, attachment, execution, garnishment or other legal process and are not assignable nor shall the board recognize any assignment nor pay over any sum assigned.

(b) Notwithstanding subsection (a) of this section, payments under this article may be made in accordance with qualified domestic relations orders pursuant to W.S. 9-3-426.

(c) The board may annually review the status of any member receiving a disability benefit under this article and may require any member receiving a disability benefit who is not eligible for normal retirement benefits under W.S. 15-5-403, to submit to any examination, test or
evaluation by a physician or other appropriate professional
designated or approved by the board, as necessary for
conducting a review under this subsection. If a member
refuses to submit to an examination, test or evaluation
required under this subsection, benefit payments under this
article shall be discontinued.

15-5-406. Survivor benefits.
The eligible surviving spouse or dependents of a member
shall receive a survivor's pension if the member dies from
any cause while in service.

15-5-407. Payment of service or early retirement pensions.
Service or early retirement pensions shall be made to a
retired member for each month beginning with the month in
which he is eligible to receive such pension and ending
with the month in which he dies, unless an optional form
has been elected in accordance with W.S. 15-5-413.

15-5-408. Payment of disability pension.
(a) Disability pension payments shall be made to a
member for each month beginning with the month in which he
is eligible to receive such pension and ending with the
month in which he ceases to be eligible or dies, unless an
optional form has been elected in accordance with W.S. 15-
5-413.

(b) If a member who is disabled recovers and is no
longer totally or partially disabled, his disability
pension shall be discontinued unless he has reached normal
retirement age.

15-5-409. Amount of service pension.
(a) The amount of the monthly service pension payable
to a retired member is:

(i) Two and eight-tenths percent (2.8%) of his final
average compensation multiplied by the number of years in
his first twenty-five (25) years of his period of credited
service.

(ii) Repealed By Laws 2000, Ch. 43, 2.
(iii) Repealed By Laws 2008, Ch. 112, 2.

(b) For purposes of this section, credited service shall be measured in years taken to the nearest twelfth (1/12) of a year.

15-5-411. Amount of disability pension.

(a) The disability pension shall be the greater of:

(i) Fifty percent (50%) of final average compensation; or

(ii) The service pension based on credited service accrued to the date of disability.

15-5-412. Amount of survivor's pension.

(a) The monthly survivor's pension payable to a member's eligible primary survivor or, if there is no eligible surviving spouse, then to his eligible surviving dependents, shall be equal to the greater of:

(i) Fifty percent (50%) of final average compensation; or

(ii) The service pension based on credited service accrued to the date of the member's death.

(b) If the primary survivor is the surviving spouse, that person shall have been married to the deceased member for at least one (1) year before the date of death, unless the death was the result of an accident.

(c) A survivor's pension shall begin with the month following the month in which the member dies. If the pension is payable to a surviving spouse who subsequently dies, it is then payable in the following month to the next primary survivor as defined in W.S. 15-5-402(a)(xiv) or ceases with that month in the absence of eligible dependents. If payable to a child who dies or fails to meet the conditions of eligibility in W.S. 15-5-402(a)(vi), the pension shall cease with that month.

15-5-413. Optional forms of benefits.
(a) Any member eligible for a service or disability pension may elect to receive one (1) of the following optional forms, in lieu of the pension computed in W.S. 15-5-409 through 15-5-411, which shall be the actuarial equivalent of the benefit to which he would otherwise be entitled:

(i) A reduced pension payable to the retired member and upon his death all of the reduced pension to be paid to his surviving spouse;

(ii) A reduced pension payable to the retired member and upon his death one-half (1/2) of the reduced pension to be paid to his surviving spouse;

(iii) A benefit which provides reduced monthly service retirement payments with provision for the continuance of payments for ten (10) years certain and life thereafter. If the retired member dies within ten (10) years after retirement, the remaining guaranteed payments shall be made to his designated beneficiary. This beneficiary may be changed at any time by written notification to the board as provided in subsection (b) of this section;

(iv) The largest possible benefit for life with no lump sum refund or benefit for anyone else upon the retired member's death;

(v) Any other modified monthly service retirement benefit, including any other modified joint and survivor monthly service retirement benefit, actuarially determined, which the board approves.

(b) An election of an optional benefit shall be in writing and filed with the board prior to the first benefit payment. After an election of any of the options provided in subsection (a) of this section has been made and the member has cashed his first pension check, or sixty (60) days from the date of issuance of the check have elapsed, the election is irrevocable unless a beneficiary dies prior to the occurrence of either such event, in which case the election is void and the member may, by written notice to the board, designate a new beneficiary and may select a different option. As provided in paragraph (a)(iii) of this section, upon written notice to the board, a member may
change a beneficiary at any time within the ten (10) year period.

(c) The retirement benefits payable under optional forms available under this section shall be the actuarial equivalent of the normal benefit form under W.S. 15-5-409.

Except as may otherwise be provided in any of the options under W.S. 15-5-413, upon the death of a member, inactive member, retired member or individual receiving a survivor's pension, there shall be paid to the designated beneficiary or beneficiaries or, in the absence of a designated beneficiary, to the estate of the member, inactive member, retired member or survivor, a lump sum equal to the excess, if any, of the accumulated member contributions without interest over the aggregate of all pension payments made.

(a) The accumulated contributions without interest of a member who is neither eligible for a service nor disability pension, nor has a vested right to a service pension, shall be refunded upon his withdrawal from service. There shall be a rebuttable presumption that a former member who fails to apply for a withdrawal benefit within five (5) years after the date of withdrawal has waived his right to such benefit.

(b) If a member has a vested right to a service pension and withdraws from service and is not immediately eligible for a service or disability benefit, he may request a refund of his accumulated contributions without interest. Refund of such contributions extinguishes all rights to any benefits under this article.

(a) A pension payable under this article shall be adjusted beginning in the year the retired member attains age fifty (50), or in the case of disability and survivor's pensions, beginning in the year next following twelve (12) months of payments, in accordance with changes in the Wyoming cost of living index. The benefits existing for each eligible individual may be increased by an amount not to exceed the greater of the percentage increase in the
cost of living as determined by the board or a percentage adjustment to a level the system's actuary determines to be actuarially sound pursuant to subsection (b) of this section. The total benefit adjustment under this section shall not exceed three percent (3%) in any one (1) year.

(b) An increase in benefits under this section is effective only upon a determination that the increase is actuarially sound. The percentage increase in the cost of living for a calendar year is equal to the annual percentage increase in the cost of living as of the immediately preceding July 1 as shown by the Wyoming cost-of-living index as determined by the division of economic analysis of the department of administration and information. The amount of any percentage increase in the cost of living which exceeds the maximum percentage adjustment under subsection (a) of this section shall be accumulated and added to future years' percentage increases in the cost of living. The board may for any increase under this section for any year and in accordance with W.S. 9-3-419(b)(v), reduce the percentage adjustment to a level the system's actuary determines renders the system actuarially sound. Actuarial determinations pursuant to this section shall be reported annually to the governor and the joint appropriations interim committee.

(a) A service pension, disability pension, survivor's pension, death benefit or withdrawal benefit shall be paid only upon the filing of an application in a form prescribed by the board. A monthly benefit shall not be payable for any month earlier than the second month preceding the date on which the application for such benefit is filed.

(b) The board may require any member, inactive member, retired member or eligible survivor to furnish any information as may be required for the determination of benefits under this article, if the determination of the pension is dependent upon that information. The board may withhold payment of any benefit, if the determination of the benefit is dependent upon the information and the member, inactive member, retired member or eligible survivor does not cooperate in the furnishing or procuring thereof.

15-5-418. Election of membership.
(a) A "paid fireman" as defined in W.S. 15-5-201(a)(xi) may elect to become a member, as defined in this article by filing an election with the board not later than December 31, 1981, or within thirty (30) days of return to service, if later, for any paid fireman who leaves service prior to July 1, 1981.

(b) Commencing January 1, 1982, or thirty (30) days after return to service, if later, an electing member is covered by the provisions of this article, and all rights to a pension under W.S. 15-5-201 through 15-5-209 are extinguished. The member shall receive credited service for all prior service, not to exceed ten (10) years, which was recognized under W.S. 15-5-201 through 15-5-209. However, that credit may be reinstated only by payment of any contributions previously refunded with interest at the rate of eight percent (8%) per annum from the date of refund.

15-5-419. Dual membership prohibited.

(a) Any employee hired before July 1, 1981 is covered by the pension system specified in W.S. 15-5-201 through 15-5-209 unless he elects to become a member pursuant to W.S. 15-5-418. Any employee hired on or subsequent to July 1, 1981 is covered by the pension system specified in this article. No employee may be covered by the pension systems of both W.S. 15-5-201 through 15-5-209 and this article.

(b) No paid employee shall participate as a member of the firemen's pension system established under this article and as a member of the volunteer firemen's pension fund established under W.S. 35-9-601 through 35-9-615 if participation is based upon covered service with the same fire department.

15-5-420. Member contributions.

(a) Each employer shall deduct monthly from the compensation of each member participating in the account a sum equal to eight and five-tenths percent (8.5%) of the member's compensation, and that amount shall be paid by the employer to the account.

(b) From and after July 1, 1983 the contributions required by subsection (a) of this section shall be paid by the employer for employees covered under this article in order to be treated as employer contributions for the sole
purpose of determining tax treatment under the United States internal revenue code.

(c) The contributions under subsection (b) of this section shall be paid from the source of funds which is used in paying salary to the employee. The employer may pay these contributions by a reduction in cash salary of the employee or by an offset against a future salary increase, or by a combination of a reduction in salary and an offset against a future salary increase, provided:

(i) No such salary reduction or offset, or combination thereof, shall exceed the percentage amount actually being deducted from an employee's salary for contributions to the account as of July 1, 1983; and

(ii) Any employer may pay any amount of an employee's share of retirement contributions without a salary reduction or offset, or combination thereof.

Until January 1, 1983 each employer shall pay into the account an amount equal to twenty-one percent (21%) of the compensation paid all members of the account. Beginning January 1, 1983, each employer shall make monthly contributions to the account in an amount equal to the percentage contribution rate multiplied by the salaries paid to members of the account. The contribution rate, expressed as a percentage, shall be based on the results of actuarial valuations made at least every three (3) years, with the first such actuarial valuation to be made as of January 1, 1982. The city's contribution rate shall be comprised of the normal cost plus the level percentage of salary payment required to amortize the actuarial liability over a period of forty (40) years from January 1, 1983, calculated on the basis of an acceptable actuarial reserve funding method approved by the board.

15-5-422. Payments; when and how made; protections; nonassignability; qualified domestic relations order.

(a) Payments made under this article shall be made to the beneficiaries on or before the fifth day of each month and shall be made by voucher drawn against the firemen's pension account and paid by the state treasurer out of the account. No payments made under this article are subject to
judgment, attachment, execution, garnishment or other legal process and are not assignable nor shall the board recognize any assignment nor pay over any sum assigned.

(b) Notwithstanding subsection (a) of this section, payments under this article may be made in accordance with qualified domestic relations orders pursuant to W.S. 9-3-426.

For any 911 emergency reporting system that operates a reverse 911 warning system, a quarterly test on the warning system will be conducted by calling random numbers. The level of technology for provision of the 911 emergency reporting system is to be determined by the governing body and may include enhanced wireless 911 services, however, the 911 system shall include a device for telecommunications for the deaf. Effective January 1, 2009, the governing body shall file with the Wyoming public service commission a certified statement of its annual gross receipts and detailed and itemized annual expenditures of any taxes collected pursuant to this act from 2004 through and including the most recent calendar year;

(v) "911 emergency tax" is a tax on service users within the governing body's designated 911 service area set by the governing body in accordance with this act and assessed on each service user's local exchange access lines and wireless communications access to pay the directly related costs of a 911 system as authorized in accordance with W.S. 16-9-105;

(vi) "Public agency" means any city, town, county, special district or other political subdivision of the state located in whole or in part within this state providing or having the authority to provide fire fighting, law enforcement, ambulance, emergency medical or other emergency services;

(xvi) "Wireless 911 service" means any 911 service provided by a wireless carrier, including enhanced wireless 911 service.

16-9-103. Imposition of tax; liability of user for tax; collection; uncollected amounts; discontinuing service prohibited.

(a) In addition to any other powers for the protection of the public health, a governing body may incur any nonrecurring or recurring costs for the installation, maintenance or operation of a 911 system and may pay these costs by imposing a 911 emergency tax for this service in those portions of the governing body's jurisdiction for which 911 service is to be provided.

(b) In accordance with the provisions of this subsection, and after a public hearing the governing body may, by ordinance in the case of cities and by resolution in the case of counties or special districts, impose a monthly uniform tax on service users within its designated 911 service area in an amount not to exceed seventy-five cents ($0.75) per month on each local exchange access line, per wireless communications access or other technological device that under normal operation is designed or routinely used to access 911. Only one (1) governing body may impose a 911 emergency tax for each 911 system. Regardless of the level at which the tax is set, if an assessment is made on both local exchange access facilities and wireless communications access, the amount of the tax imposed per local exchange access facility and the amount of the tax imposed per wireless communications access or access by other technological device that under normal operation is designed or routinely used to access 911, shall be equal. The proceeds of the 911 emergency tax shall be set aside in an enterprise fund or other separate accounts from which the receipts shall be used to pay for the 911 system costs authorized in W.S. 16-9-105, and may be imposed at any time following the execution of an agreement with the provider of the service at the discretion of the governing body.

(c) No 911 emergency tax shall be imposed upon more than one hundred (100) local exchange access lines or their equivalent per customer billing.

(d) Collection of any 911 emergency tax from a service user pursuant to this chapter shall commence at the time
specified by the governing body in accordance with this act. Taxes imposed under this chapter and required to be collected by the service supplier shall be added to and stated separately in the billings to the service user.

(e) Every billed service user shall be liable for any 911 emergency tax imposed under this chapter until it has been paid to the service supplier or governing body.

(f) An action to collect taxes under subsection (d) of this section may be brought by or on behalf of the public agency imposing the tax. The service supplier shall annually provide the governing body a list of the amounts uncollected along with the names and addresses of delinquent service users. The service supplier is not liable for uncollected amounts.

(g) Any 911 emergency tax imposed under this chapter shall be collected at the time charges for the telecommunications are collected under the regular billing practice of the service supplier.

(h) Service shall not be discontinued to any service user by any service supplier for the nonpayment of any tax under this act.

(j) The 911 emergency tax imposed pursuant to this section shall only be imposed upon service users whose address is in those portions of the governing body's jurisdiction for which emergency telephone service shall be provided; however, such 911 emergency tax shall not be imposed upon any state or local governmental entity.

16-9-104. Remittance of tax to the governing body; administrative fee; establishment of rate of tax.

(a) Any tax imposed under this chapter and the amounts collected are to be remitted quarterly. The amount of the tax collected in one (1) calendar quarter by the service supplier shall be remitted to the governing body no later than fifteen (15) days after the close of the calendar quarter. On or before the sixteenth day of each month following the preceding calendar quarter, a return for the preceding quarter shall be filed with the governing body in a form the governing body and service supplier agree upon. The service supplier required to file the return shall deliver the return together with the remittance of the
amount of the tax payable to the governing body. The service supplier shall maintain a record of the amount of each tax collected pursuant to this chapter. The record shall be maintained for a period of one (1) year after the time the tax was collected.

(b) The service supplier remitting the taxes collected under this chapter may deduct and retain one percent (1%) of the taxes collected as the cost of administration for collecting the taxes.

(c) At least once each calendar year, the governing body shall establish a rate of tax not to exceed the amount authorized. Amounts collected in excess of necessary expenditures within any fiscal year shall be carried forward to subsequent years and shall only be used for the purposes set forth in W.S. 16-9-105. The governing body shall fix the rate, publish notice of its new rate and notify by mail every local exchange access company at least ninety (90) days before the new rate becomes effective. The governing body may at its own expense require an annual audit of the service supplier's books and records concerning the collection and remittance of the tax authorized by this chapter.

16-9-105. Agreements or contract for 911 emergency reporting systems; use of funds collected.

(a) Any governing body imposing the tax authorized by this chapter may enter into an agreement directly with any service supplier to the 911 system or may contract and cooperate with any public agency or any other state for the administration of a 911 system in accordance with law.

(b) Funds collected from the 911 emergency tax imposed pursuant to this chapter shall be spent solely to pay for public safety answering point and service suppliers' equipment and service costs, installation costs, maintenance costs, monthly recurring charges and other costs directly related to the continued operation of a 911 system including enhanced wireless 911 service. Funds may also be expended for personnel expenses necessarily incurred by a public safety answering point. "Personnel expenses necessarily incurred" means expenses incurred for persons employed to:
(i) Take emergency telephone calls and dispatch them appropriately; or

(ii) Maintain the computer data base of the public safety answering point.

(c) Funds collected from the charge pursuant to this chapter shall be credited to a cash account separate from the general fund of the public agency, for payments for public safety answering points and service supplier costs pursuant to subsection (b) of this section. Any monies remaining in the cash account at the end of any fiscal year shall remain in the account for payments during any succeeding year. If any 911 system is discontinued, monies remaining in the account shall, after all payments to the service supplier pursuant to subsection (b) of this section, be transferred to the general fund of the public agency or proportionately to the general fund of each participating public agency.

16-9-106. Private listing and wireless subscribers, 911 service.

Private listing and wireless subscribers in 911 service areas waive privacy afforded by non-listed or non-published numbers to the extent that the name and address associated with the telephone number may be furnished to the 911 system, for call routing, for automatic retrieval of location information and for associated emergency services.

The information obtained through a 911 system shall be considered a public record under W.S. 16-4-201(a)(v) and access to the information may be denied according to law.

16-9-108. Immunity for providers.

No basic emergency service provider or service supplier and no employee or agent thereof shall be liable to any person or entity for infringement or invasion of the right of privacy of any person caused or claimed to have been caused, directly or indirectly, by any act or omission in connection with the installation, operation, maintenance, removal, presence, condition, occasion or use of emergency service features, automatic number identification or automatic location identification services and the
equipment associated therewith, including the identification of the telephone number, address or name associated with the telephone used by the person accessing 911 service, wireless automatic number identification or wireless automatic location identification service. A governmental entity, public safety agency, local exchange access company, telephone exchange access company or wireless carrier that provides access to an emergency system or any officers, agents or employees thereof is not liable as a result of any act or omission except willful and wanton misconduct or gross negligence in connection with developing, adopting, operating or implementing emergency telephone service, enhanced wireless 911 service or any 911 system.

CHAPTER 12 – SPECIAL DISTRICTS

ARTICLE 1 – SPECIAL DISTRICT PUBLIC RECORDS AND MEETINGS ACT

on a uniform basis to the sale or disposition of any land where the subdivision creates parcels that are thirty-five (35) acres or larger and up to one hundred forty (140) acres. Boundary adjustments between or among parcels shall not be considered as a division of property subject to the limitations in this section. If a county elects to apply this article to sales or dispositions where the subdivision creates parcels that are thirty-five (35) acres or larger and up to one hundred forty (140) acres, unless the property is exempted under this subsection, the subdivider shall obtain a subdivision permit pursuant to this section. Where individual on-lot wells are proposed, the study shall not be required and the words "NO PROPOSED CENTRAL WATER SUPPLY SYSTEM," in bold capital letters shall appear on all offers, contracts, agreements and plats relating to the parcel or parcels.

(b) The board may require any or all of the following information to be submitted with an application for a subdivision permit pursuant to this section:

If, however, the subdivider proposes to make any streets, alleys or roadways private, then the subdivider shall submit to the board properly acknowledged written certification that certain streets, alleys or roadways within the subdivision shall remain private and the board shall be under no obligation to repair, maintain or accept any dedication of these roads to the public use. The plan shall specify the distribution of the water to the lots within the subdivision and shall include all appropriate applications for change of use, change of place of use or change in point of diversion or means of conveyance in accordance with W.S. 41-3-103, 41-3-104 or 41-3-114;

(D) If the subdivision is located within an irrigation district or within lands, served by a ditch, irrigation company or association or by an unorganized ditch, evidence that the plan has been submitted to the district board company, or association, or the remaining appropriators in the case of an unorganized ditch for their review and recommendations; and

(E) Evidence that the subdivider will specifically state on all offers relative to the subdivision his intent to comply with this paragraph and that the seller does not warrant to a purchaser that he shall have any rights to the natural flow of any stream within or adjacent to the proposed subdivision. He shall further state that the Wyoming law does not recognize any riparian rights to the continued natural flow of a stream or river for persons living on the banks of the stream or river.

(c) The board shall require the applicant to obtain review and recommendations from the local conservation district regarding soil suitability, erosion control, sedimentation and flooding problems. The review and
recommendations shall be completed within sixty (60) days.

If the entire subdivision does not lie within a fire protection district and no city, town or fire protection district is obligated to provide fire protection pursuant to an agreement authorized by law the subdivider shall put a legend on the plat of the subdivision and on all offers, contracts or agreements for the sale and purchase of lots within the subdivision showing in capital letters "LOTS ARE NOT PART OF A FIRE PROTECTION DISTRICT AND FIRE PROTECTION IS NOT OTHERWISE PROVIDED".

(e) If the permit is approved the board shall require the applicant to put a legend on the plat and on all offers, contracts or agreements for the sale and purchase of lots within the subdivision showing in capital letters "THE SURFACE ESTATE OF THE LAND TO BE SUBDIVIDED IS SUBJECT TO FULL AND EFFECTIVE DEVELOPMENT OF THE MINERAL ESTATE".

(f) Nothing in this section shall require the acquisition of a permit for the sale or disposition of lands that on or before July 1, 2008 have been developed and promoted as part of a large acre subdivision as evidenced by dated plat maps, sales brochures or other evidence acceptable to the board.

(g) If the lots, units, tracts or parcels created pursuant to a permit issued under this section are used for agricultural purposes and otherwise qualify as agricultural land for purposes of W.S. 39-13-103(b)(x), the lots, units, tracts or parcels shall be deemed not to be part of a platted subdivision for purposes of W.S. 39-13-103(b)(x)(B)(II).

18-5-317. Subsequent sale of subdivided lots.

If any lot, unit, tract or parcel is created pursuant to a subdivision and the lot, unit, tract or parcel is sold pursuant to a contract for deed, notice of the contract for deed shall be recorded with the county clerk within ten (10) days after the contract was executed.

19-13-109. Local programs; reciprocal and mutual aid.

(a) The local coordinators in collaboration with other public and private agencies within this state will develop or cause to be developed mutual aid arrangements for reciprocal homeland security aid and assistance in case of disaster of extreme nature which affects two (2) or more political subdivisions or is too great to be dealt with unassisted. Upon acceptance the governor of the state or executive officer or governing body of the political subdivision may authorize any officer of the state or of the political subdivision to receive the services, equipment, supplies, materials or funds on behalf of the state or the political subdivisions. This authority will include participation in the federal surplus property program. This section shall not affect the right of any person to receive benefits to which he would otherwise be entitled under W.S. 19-13-101 through 19-13-116, under the Wyoming Worker's Compensation Act, or under any pension law, nor affect the right of any person to receive benefits or compensation under any act of congress.

(b) Any requirement for a license to practice any professional, mechanical or other skill does not apply to any authorized homeland security worker who, in the course of performing homeland security duties, practices a professional, teaching, training, mechanical or other skill during a homeland security emergency, in training for an emergency or during homeland security exercises.

A recognized educational program includes programs in educational institutions duly existing under the laws of this state and such other educational programs as are established by the office of homeland security or otherwise under this act.
(d) Any person owning or controlling real estate or other premises who voluntarily and without compensation grants a license or privilege or otherwise permits the designation or use of the whole or any part of the real estate or premises for the purposes of sheltering persons during an actual, impending, mock or practice exercise, together with his successors in interest, is not civilly liable for negligently causing the death of or injury to any person on or about the real estate or premises nor for loss of or damage to the property of any person.

(a) No person shall be employed or associated in any capacity in any homeland security program established under this act:

"And I do further swear (or affirm) that I do not advocate, nor am I a member or an affiliate of any organization, group or combination of persons that advocates the overthrow of the government of the United States or of this state by force or violence; and that during such time as I am a member of the (name of homeland security program) I will not advocate nor become a member of any political party or organization that advocates the overthrow of the government of the United States or of this state by force or violence."

19-13-115. Admission of professional personnel of other states in emergency.

In the event disaster conditions in Wyoming require visitation to this state by homeland security personnel from other states, including physicians, dentists, veterinarians, nurses or other professional personnel, reciprocity by way of allowing those professional persons to practice their professional talents without the normal admissions to practice in this state during the period of the emergency, is allowed.

Every homeland security program established pursuant to this act and the officers thereof shall execute and enforce orders, rules and regulations made by the governor under authority of this act. Each organization shall have available for inspection at its office all orders, rules and regulations made by the governor or under his authority.

ARTICLE 4 - EMERGENCY MANAGEMENT ASSISTANCE COMPACT

The Emergency Management Assistance Compact is enacted into law and entered into with all other jurisdictions legally joining therein in form substantially the same. W.S. 19-13-401 through 19-13-414 shall be known and may be cited as the "Emergency Management Assistance Compact."

19-13-402. Purposes and authorities.
(a) This compact is made and entered into by and between the participating member states that enact this compact, hereinafter called party states. For the purposes of this agreement, the term "states" is taken to mean the several states, the Commonwealth of Puerto Rico, the District of Columbia and all United States territorial possessions.

(b) The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the governor of the affected state, whether arising from natural disaster, technological hazard, man-made disaster or emergency aspects of resource shortages.

(c) This compact shall also provide for mutual cooperation in emergency-related exercises, testing or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies for actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' national guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

(a) Each party state entering into this compact recognizes many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies, which require immediate access and present procedures to apply outside resources to make a prompt and effective response to an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

(b) The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care and welfare of the people in the event of any emergency or
disaster declared by a party state, shall be the underlying principle on which all provisions of this compact shall be understood.

(c) On behalf of the governor of each state participating in the compact, the legally designated state official who is assigned responsibility for homeland security will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

(a) It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this section. In formulating the plans, and in carrying them out, the party states, insofar as practical, shall:

(i) Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects of resource shortages, or enemy attack;

(ii) Review party states' individual homeland security plans and develop a plan, which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency;

(iii) Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

(iv) Assist in warning communities adjacent to or crossing the state boundaries;

(v) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services and resources, both human and material;

(vi) Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness.
(b) The authorized representative of a party state may request assistance of another party state by contacting the authorized representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty (30) days of the verbal request. Requests shall provide the following information:

(i) A description of the emergency service function for which assistance is needed, including but not limited to fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services and search and rescue;

(ii) The amount and type of personnel, equipment, materials and supplies needed and a reasonable estimate of the length of time they will be needed;

(iii) The specific place and time for staging of the assisting party's response and a point of contact at that location.

(c) There shall be frequent consultation between state officials who have assigned homeland security responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States government, with free exchange of information, plans and resource records relating to emergency capabilities.

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take the action necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for that state. Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights and privileges afforded forces of the state in which they are
performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the governor of the party state that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect or loaned resources remain in an official capacity in the receiving state, whichever is longer.

Whenever any person holds a license, certificate or other permit issued by any state party to the compact evidencing the meeting of qualifications for professional, mechanical or other skills, and when assistance is requested by the receiving party state, the person shall be deemed licensed, certified or permitted by the state requesting assistance to render aid involving the skill to meet a declared emergency or disaster, subject to limitations and conditions the governor of the requesting state may prescribe by executive order or otherwise.

Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes. Any party state or its officers or employees rendering aid in this state pursuant to this compact shall be liable for any act or omission on the part of the forces while so engaged or for the maintenance or use of any equipment or supplies in connection therewith in accordance with the provisions of the Wyoming Governmental Claims Act.

19-13-408. Supplementary agreements.

If it is probable that the pattern and detail of the machinery for mutual aid among two (2) or more states may differ from that among the states that are party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any
state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel and equipment and supplies.

Each party state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of the forces in case the members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with the requests; provided, that any aiding party state may assume in whole or in part the loss, damage, expense or other cost, or may loan the equipment or donate the services to the receiving party state without charge or cost; and provided further, that any two (2) or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Expenses under W.S. 19-13-409 shall not be reimbursable under this provision.

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management services directors of the various jurisdictions where any type of incident requiring evacuations might occur. The plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting
the evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of the evacuees to other areas or the importing of additional materials, supplies and all other relevant factors. The plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for the evacuees, for expenditures for transportation, food, clothing, medicines and medical care and like items. The expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of the evacuees.

(a) This compact shall become operative immediately upon its enactment into law by any two (2) states; thereafter, this compact shall become effective for any other state upon its enactment by that state.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no withdrawal shall take effect until thirty (30) days after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. The action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

(c) Duly authenticated copies of this compact and of supplementary agreements entered into shall, at the time of their approval, be deposited with each of the party states and with the federal department of homeland security and other appropriate agencies of the United States government.

19-13-413. Validity.

This act shall be construed to effectuate the purposes stated in W.S. 19-13-402 hereof. If any provision of this compact is declared unconstitutional, or its applicability to any person or circumstances is held invalid, the
constitutionality of the remainder of this act and its applicability to other persons and circumstances shall not be affected.

Nothing in this compact shall authorize or permit the use of military force by the national guard of a state at any place outside that state in any emergency for which the president is authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the Air Force would in the absence of express statutory authorization be prohibited under Section 1385 of Title 18, United States Code.
21-16-1501. Free tuition and fees for education of survivors of deceased peace officers, firefighters and emergency medical technicians.
21-16-1501. Free tuition and fees for education of survivors of deceased peace officers, firefighters and emergency medical technicians.

(a) The University of Wyoming or any Wyoming community college for up to ten (10) semesters shall provide free tuition and fees for any person who is a surviving dependent of any person described in subsection (g) of this section. If the surviving dependent first enrolls in a community college and then transfers to another community college or the University of Wyoming, the free tuition and fees shall continue until the dependent has completed a cumulative total of ten (10) semesters at the community college level and the university.

Except as provided by W.S. 22-29-401(b), the specific provisions of a principal act are effective and controlling to the extent they conflict with this act.

(c) If a proposed district crosses county boundaries, then any required filing with a county clerk shall be filed with or certified to the county clerks of the counties affected. Any action required or permitted by this act, a principal act or applicable rules to be undertaken by a county commission or the county commissioners shall be undertaken jointly by the county commissioners for each county involved. In undertaking joint action, each county commissioner's vote shall be weighted in proportion to the number of county commissioners and the population of electors of the district residing within that commissioner's county. The population of electors shall be determined by the most recent voter registration lists. Any consultation required of the county assessor or county treasurer shall be made jointly by the county assessor or county treasurer of all the affected counties.

Petitions required to be filed with the county commissioners shall be filed with the county clerk. Petitions required to be filed with the district board shall be filed with the secretary of the district board. It is not necessary to offer all counterparts of a petition for filing at the same time, but all counterparts when certified as provided by subsection (c) of this section shall be filed at the same time.

(b) Within ten (10) days after the date a petition is offered for filing, the county clerk or district secretary, as the case may be, shall examine the petition and determine whether it is signed by the requisite number of qualified signers. If the requisite number have not signed, the county clerk or district secretary shall so notify the chief petitioners and may return the petition to the petitioners.

(c) A petition shall not be filed unless the certificate of the county clerk or the district secretary is attached thereto certifying that the county clerk or district secretary has verified the qualifications of the signers with the appropriate records, that the county clerk or district secretary has ascertained there from the number of qualified signers appearing on the petition, and that the petition is signed by the requisite number of qualified signers.

(a) In examining any petition required or permitted to be signed by landowners, the county clerk or district secretary shall disregard the signature of a person not shown as owner on the assessment roll unless prior to certification the secretary or county clerk is furnished with written evidence, satisfactory to the county clerk or district secretary, that the signer:

Further, the petition shall be approved by any agency required by the principal act to approve the petition. If the petition satisfies all requirements of the principal act, the county commissioners shall:

(i) Set a date for a hearing on the petition. The hearing shall be held not less than forty-five (45) days nor more than ninety (90) days after the date the petition is filed;

(C) The time and place of the hearing on the petition; and

(D) That all interested persons may appear and be heard.

(b) Any person may appear at the hearing and shall be heard concerning any and all matters affecting the creation of the district, and a record of the proceedings shall be made and kept as a part of the public records of the board of county commissioners.

(c) At the time stated in the notice, the county commissioners shall hear the petition and determine if the area could be benefited by the formation of the district. It may adjourn the hearing from time to time, but not exceeding four (4) weeks in all unless additional notice is given. The county commissioners may alter the boundaries set forth in the petition to either include or exclude territory. In determining the boundaries of the proposed district, the board shall consider the benefit the proposed district will have within the territory in or out of the proposed district. The commissioners shall not modify the boundaries so as to exclude from the proposed district any land which could be benefited by its formation, nor shall there be included any land which will not, in the judgment of the board, be benefited. In no event shall property which may be subject to a district assessment be included in the boundaries of a district if the owner of the assessed property is precluded by applicable state or federal law, rule or regulation from using the services provided by the formation of the district.

(d) If the county commissioners determine, after consultation with the county assessor, that any land has been improperly omitted from the proposed district and that the owner has not appeared at the hearing, the commissioners shall continue the hearing and shall order
notice given to the non-appearing owner requiring the owner to appear before it and show cause, if any, why the land of the owner should not be included in the proposed district. The notice shall be given either by posting and publication, in the same manner as notice of the original hearing and for the same period, or by personal service on each non-appearing owner. If notice is given by personal service, service shall be made at least ten (10) days prior to the date fixed for the further hearing.

(e) If within thirty (30) days after adjournment of the hearing, written protests, signed by the owners of at least thirty-five percent (35%) of assessed valuation of property included in the proposed district, are presented to the board of county commissioners, the proposal and the district shall fail.

(f) If the county commissioners approve the petition for formation, as presented or as modified, the county commissioners shall enter an order declaring its approval. The order shall set forth the name of the proposed district and a description of the boundaries. Upon the entering of this order, the commissioners shall direct that the question of formation of the district and the election of the initial directors be submitted to the electors of the proposed district to be held in their respective counties by mail ballot or on the next election date authorized under W.S. 22-21-103 which is at least sixty (60) days after the expiration of the thirty (30) day period described in subsection (e) of this section.

(g) Any errors or changes on the map or in the legal description shall be corrected, and the corrected version shall be displayed at the polls on election day or included in each mail ballot package. (B) The number of votes received by each person receiving votes at each polling place;

(C) A statement of the offices to be filled and a declaration of the winners;

(D) The result of any ballot proposition.

(ii) Sign the abstract which then constitutes the certification of the canvassing board and file the abstract with the county clerk at the conclusion of the canvassing board meeting.

(f) A candidate may request a recount of the vote in accordance with W.S. 22-16-110.

(g) Any special district election may be contested in accordance with chapter 17 of the Wyoming Election Code of 1973, as amended.

22-29-115. Mail ballot elections; definitions; general provisions.

(a) This section does not apply to a special district election held in conjunction with a primary, general or statewide special election. As used in W.S. 22-29-116:

(i) "Election official" means the county clerk for a formation election and a county clerk or district secretary for other elections;

(ii) "Mail ballot election" means an election for which voters cast ballots in a special district election by mail and in accordance with this chapter;

(iii) "Mail ballot package" means the packet of information provided by the election official to voters eligible to vote in the mail ballot election;

(iv) "Transmit" means to mail or to personally deliver.

(b) The secretary of state, after consultation with the county clerks, shall establish procedures for conducting mail ballot elections.
Regardless of the number of eligible voters within the district, the county commissioners may order the formation election to be a mail ballot election.

Regardless of the number of voters within its boundaries, a special district may, by rule or bylaw of its governing body, conduct by mail ballot elections to enlarge, withdraw, merge, consolidate, dissolve or such other election required by the principal act. A special district may by rule or bylaw pay the return postage of mail and absentee ballots.

Upon the adoption of the rule or bylaw to conduct an election by the mail ballot procedure, each voter shall be mailed a mail ballot.

22-29-116. Procedures for mail ballot elections.

(a) Mail ballot elections shall be overseen by the county clerk as provided in W.S. 22-29-113(m). Official ballots shall be prepared and all other pre-election procedures followed as otherwise provided by law or rules promulgated by the secretary of state, except that mail ballot packets shall be prepared in accordance with the following:

(i) No later than forty-five (45) days prior to election day, the secretary of the special district shall request from the county clerk of each county in which the special district is located a list of qualified electors residing within the affected district;

(ii) No later than thirty (30) days prior to election day, the county clerk of each county in which a special district is located shall certify and submit to the election official a list of qualified electors residing within the affected district;

(iii) No sooner than twenty-five (25) days and no later than fifteen (15) days before an election, the election official shall mail to each landowner who has filed a written authorization and request for a mail ballot and to each qualified elector entitled to vote in the mail ballot election, at the last address appearing in the registration records a mail ballot packet, which shall be marked "DO NOT FORWARD-ADDRESS CORRECTION REQUESTED," or
any other similar statement which is in accordance with United States postal service regulations;

(iv) The ballot or ballot label shall contain the following warning:

WARNING

The criminal laws regulating the conduct of elections contained in chapter 26 of the Wyoming Election Code of 1973, as amended apply with equal force to elections conducted by mail.

(v) No sooner than twenty-five (25) days and no later than 4:00 p.m. on election day, mail ballots shall be made available at the election official's office for voters entitled to vote in the election but who are not otherwise listed on the county voter registration records if otherwise authorized to vote;

(vi) A voter may obtain a replacement ballot if the ballot was destroyed, spoiled, lost, or for some other reason not received by the voter. In order to obtain a replacement ballot, the voter must sign a sworn statement specifying the reason for requesting the replacement ballot. The statement shall be presented to the election official no later than 4:00 p.m. on election day. The election official shall keep a record of each replacement ballot issued in accordance with this section together with a list of each ballot obtained pursuant to this section. An election official shall not transmit a mail ballot package under this section unless the application for the replacement ballot is received on or before election day. A replacement ballot may be transmitted directly to the applicant at the election official's office or may be mailed to the voter at the address provided in the application. Replacement ballots may be cast no later than 5:00 p.m. on election day;

(vii) Upon receipt of a ballot, the voter shall mark the ballot, sign and complete the return-verification envelope, and comply with the instructions provided with the ballot. The voter may return the marked ballot to the election official by United States mail or by depositing the ballot at the office of the official or any place designated by the official. The ballot must be returned in the return-verification envelope. The ballot shall be
received at the office of the election official or the designated depository no later than 5:00 p.m. on election day;

(viii) Once the ballot is returned, an election official shall first qualify the submitted ballot by examining the verification envelope and comparing the information on the envelope to the poll list to determine whether the ballot was submitted by a voter who has not previously voted in the election. If the ballot so qualifies, and is otherwise valid, the official shall enter the name of the registered voter in the poll book, open the return-verification envelope, remove the ballot stub, and deposit the ballot in an official ballot box;

(ix) All deposited ballots shall be counted as provided in this act and by rules promulgated by the secretary of state. A mail ballot shall be valid and counted only if it is returned in the return-verification envelope, the affidavit on the envelope is signed and completed by the voter to whom the ballot was issued and the information on the envelope is verified in accordance with paragraph (viii) of this subsection. If the election official determines that a voter to whom a replacement ballot has been issued has voted more than once, the official shall not count any ballot cast by that voter.

(b) The election official responsible for conducting the election shall provide a minimum of one (1) polling place on the day of election which shall be open for not less than five (5) consecutive hours at any time between the hours of 9:00 a.m. and 7:00 p.m. as set forth in the notice of election.

22-29-117. Change of district name.

(a) A district may change its name from the name given it in the formation order of the county commissioners, or from the name under which it was otherwise organized, to a name chosen by resolution of a majority of the directors.

(b) The directors shall not adopt a resolution for a district name change without publishing notice once of the proposed name change in a newspaper of general circulation in the county.
(c) All powers, rights, duties and obligations of a district which has adopted a new name shall be continued under the new name. All references to the prior name of the district shall be considered references to the new name.

(d) A district changing its name shall immediately notify the secretary of state if the principal act requires that formation documents be filed with the secretary of state, the county treasurer, the county clerk and the county assessor of each county in which the district is situated.

22-29-118. Directors; oath of office.

All directors, whether elected or appointed, shall, within ten (10) days after notification of election or appointment, take the oath of office provided in Wyoming constitution, article VI, section 20, before an officer authorized to administer oaths. The director shall also complete the written oath and without delay transmit a copy of the oath in writing to the respective county clerks for the first election and to the secretary of the district thereafter.

22-29-119. District officers; meeting of board; conflict of interest.

Each year the board of directors shall as soon as they are qualified elect a president, treasurer and secretary of the district. The board of directors shall hold regular and may hold special meetings as they determine. No trustee shall be directly interested financially in any contract, work done or property purchased by the district unless he has made full public disclosure and the board has unanimously approved his financial interest. A majority of directors constitutes a quorum for the transaction of district business.

ARTICLE 2 - VACANCIES

22-29-201. Vacancies.

(a) A director's office shall be deemed to be vacant upon the occurrence of any one (1) of the following events prior to the expiration of the term of office:
(i) If for any reason a properly qualified person is not elected to a director's office by the voters as required at a regular election;

(ii) If a person who was duly elected or appointed fails, neglects or refuses to subscribe to an oath of office or to furnish the bond as may be required in the principal act;

(iii) If a person who was duly elected or appointed submits a written resignation to the board of directors and the resignation has been duly accepted by the board of directors;

(iv) If the person who was duly elected or appointed ceases to be qualified for the office to which he was elected;

(v) If a person who was duly elected or appointed is found guilty of a felony;

(vi) If a court of competent jurisdiction voids the election or appointment or removes the person duly elected or appointed for any cause whatsoever, but only after his right to appeal has been waived or otherwise exhausted;

(vii) If the person who was duly elected or appointed fails to attend three (3) consecutive regular meetings of the board of directors without the board of directors having entered upon its minutes an approval for at least one (1) of those absences. This provision shall not apply to instances where failure to attend the meetings was due to a temporary mental or physical disability or illness;

(viii) If the person who was duly elected or appointed dies during his term of office;

(ix) If declared vacant by the board of county commissioners upon the failure of the district board to comply with W.S. 9-1-507(a)(vii) on or before December 30 of that same calendar year, after notice is given as provided by W.S. 9-1-507(j).

(a) A vacancy in a district director office shall be filled by appointment by a majority of the remaining
directors. However, if a vacancy exists in a majority of the offices of director, or if a majority of the directors cannot agree on an appointment, then notice of the vacancy shall be given to the county commission by either a district director or district member. The county commission shall fill the vacancy within thirty (30) days of being notified or by the time specified in the principal act. If the county commission finds that a vacancy exists in a majority of offices of director or that a majority of the directors cannot agree on an appointment, the county commission may fill the vacancy by acting on its own motion without notice.

(b) All appointments shall be evidenced by an appropriate entry in the minutes of the meeting at which the appointment was made.

(c) An appointee to the office of director shall serve until the next regular election.

(d) The appointed person before undertaking the duties of office shall take an oath of office in accordance with W.S. 22-29-118.

(e) The term of office of an appointed director begins on the day the appointee accepts the appointment unless the letter of resignation of the prior incumbent specifies a later date, which date then shall be the beginning of the appointee's term.

(f) Any vacancy created by failure of the board to comply with W.S. 9-1-507(a)(vii) shall be filled by appointment by the board of county commissioners for the sole purpose of acting as trustee to dissolve the district without election pursuant to W.S. 22-29-401 et seq.

ARTICLE 3 - ENLARGEMENT, CONSOLIDATION, MERGER AND CHANGE OF BOUNDARIES

22-29-301. Enlargement petitions.

(a) When any voters or landowners of an area wish to join a district, they may file an enlargement petition with the county commissioners. Unless otherwise provided under this subsection, the petition for enlargement may include provisions allowing the board of district directors to be enlarged by one (1) or more positions to be filled by
voters residing or located in the new area, the number of positions to be determined by the petitioners and the district directors of the existing district. Before the petition is filed with the county commissioners, it shall be approved by the directors of the affected district and by any other agency also required by the principal act to approve the petition. The petition process shall be governed by W.S. 22-29-105 through 22-29-108. An election need not be held on an enlargement petition if the petition alleges and the county commissioners find:

(i) All landowners and all voters, if any, within the new area and the board of directors of the district agree to the inclusion of the new area within the district.

(ii) Repealed by Laws 2008, Ch. 22, 2.

(b) W.S. 22-29-109 applies to the proceeding conducted by the county commissioners and the rights, powers and duties of petitioners and other persons having an interest in the proceedings. The county commissioners shall approve or disapprove the enlargement petition.

(c) Except as provided under subsection (a) of this section, if the enlargement petition is approved, there shall be an election which shall be conducted under this act. At the enlargement election, there shall also be elected temporary directors whose terms shall expire at the next regular district director election. At the first regular election following the enlargement election, the total number of directors shall be as stated in the principal act.

22-29-302. Merger of districts; effect.

(a) A district may merge with another district even if formed under different principal acts, if the merger is first approved by the county commissioners and approved by the voters of each district. The districts included in the merger shall be considered joined to and absorbed into the surviving district.

(b) If the merger is approved, the district directors and officers of the merging districts shall transfer to the directors of the surviving district all funds, property, contracts and records of the merging districts. Upon the effective date of the merger:
(i) The surviving district shall succeed to all the property, contracts, rights and powers of the merging districts, and shall constitute and be a regularly organized district as if originally organized in the manner provided by the principal act;

(ii) Uncollected taxes, assessments or charges levied by the merging districts shall become the property of the surviving district and upon collection shall be credited to the account of the surviving district; and

(iii) The surviving district shall become liable for all the obligations, legal and contractual, of the merging districts.

22-29-303. Consolidation of districts; effect.

(a) Two (2) or more districts even if formed under different principal acts may consolidate and form a new district if the consolidation is first approved by the county commissioners and approved by the voters. The districts included in the consolidation shall be considered joined into a single new district.

(b) If the consolidation is approved, the district directors and officers of the consolidating districts shall transfer to the directors of the successor district all funds, property, contracts and records of the consolidating districts. Upon the effective date of the consolidation:

(i) The successor district shall succeed to all the property, contracts, rights and powers of the consolidating districts, and shall constitute and be a regularly organized district as if originally organized in the manner provided by the principal act;

(ii) Uncollected taxes, assessments or charges levied by the consolidating districts shall become the property of the successor district and upon collection shall be credited to the account of the successor district; and

(iii) The successor district shall become liable for all the obligations, legal or contractual, of the consolidating districts.

22-29-304. Initiation of merger and consolidation; election.
(a) The voters of two (2) or more districts may initiate proceedings to merge or consolidate districts by filing a petition with the directors of the districts to be merged or consolidated. The petition shall be circulated and jointly verified in accordance with W.S. 22-29-105 and 22-29-108 by the secretaries of the districts involved. The petition shall state the name of the surviving or successor district. If two (2) or more districts planning to merge or consolidate have been formed under two (2) different principal acts, the petition shall also state under what principal act the merged or consolidated district shall operate. The principal act under which the merged or consolidated district shall operate may be different than the principal acts governing the original districts. In addition, the petition of merger or consolidation shall set forth provisions pertaining to the composition of the board of the new district until the next district election. The board of the new district may be composed of members of the combined boards. At the next regular district election members shall elect a new board. Thereafter the merged or consolidated board shall operate with the number of directors applicable under the principal act.

(b) Upon the district secretary certifying the petition, the directors of the districts shall order an election which shall be conducted in accordance with W.S. 22-29-113 through 22-29-117 and 22-29-305.

(c) Merger or consolidation may also be initiated by resolution adopted by the directors of two (2) or more districts. The resolution shall contain all the matters required to be stated in a petition to merge or consolidate. Upon the adoption of these resolutions, the directors of the district shall order an election which shall be conducted as provided in subsection (b) of this section.

22-29-305. Specific provisions relating to enlargement, merger and consolidation elections.

(a) The elections effecting enlargement, merger or consolidation shall be governed by the following specific rules:

(i) For enlargement elections, the voters of both the existing district and the area to be added shall be entitled to vote;
(ii) For merger and consolidation elections, the voters of all the affected districts shall be entitled to vote;

(iii) If a majority of those voting in each district on the proposition favor the proposition, then it shall pass;

(iv) For enlargement elections, if the voters of the existing district have approved by election a mill levy to finance the operation of the district, then the voters of the area to be added shall also be required at the enlargement election to approve the same mill levy. If a majority of the voters in the area to be added voting on the proposition fails to approve the mill levy, then the enlargement, whether or not approved under paragraph (iii) of this subsection, shall fail. This paragraph shall not apply to an enlargement in which no election is required under W.S. 22-29-301(a);

(v) For merger and consolidation elections, if the voters of an existing district have approved by election a mill levy to finance the operations of the district and the other district has no mill levy or a lower mill levy, the voters of that other district shall also be required at the merger or consolidation election to approve a mill levy at the same level as the existing district or increase an existing mill levy to the same level as the existing district. If a majority of the voters in the other district voting on the proposition fails to approve or increase the mill levy as required, then the merger or consolidation, whether or not approved under paragraph (iii) of this subsection, shall fail.

22-29-306. Rights of creditors after change of organization; enforcement.

(a) No change of organization, or any term or condition thereof, shall impair the rights of any bondholder or other creditor of a district. Every bondholder or other creditor may enforce all the rights of the bondholder or other creditor in the same manner and to the same extent as if the change of organization, term or condition had not been made. Any of these rights may also be enforced against agencies, and their respective officers, as follows:
(i) Upon enlargement of the territory, against the district to or from which the territory is enlarged;

(ii) Upon dissolution of a district, against the successor city, county or district or against a city, county or district receiving distribution of all or any part of the remaining assets of the dissolved district;

(iii) Upon merger of two (2) or more districts, against the surviving district;

(iv) Upon consolidation of two (2) or more districts, against the successor district.

22-29-307. Change in boundaries of districts; exclusion of property from district.

Any owner of property that is subject to assessment and payment of tax by a special district, but who is precluded by applicable state or federal law, rule or regulation from using the services provided by the district, may file with the board of county commissioners a petition prayering that such lands be excluded from assessment by said district. Petitions shall describe the property which the petitioners desire to have excluded. Such petition must be accompanied by a deposit of money sufficient to pay all costs of the exclusion proceedings. The county commissioners shall cause a notice of filing of such petition to be published, which notice shall state the filing of such petition, the name of petitioners, description of the property mentioned in said petition, and the prayer of said petitioners; and it shall notify all persons interested to appear at the office of said board at the time named in said notice, showing cause in writing, if any they have, why said petition should not be granted. The board at the time and place mentioned in the notice, or at the times to which the hearing of said petition may be adjourned, shall proceed to hear the petition and all objections thereto, presented in writing by any person showing cause why the prayer of the petition should not be granted. The filing by such petition shall be deemed and taken as an assent by each and all such petitioners to the exclusion from the district of the property mentioned in the petition or any part thereof. The exclusion shall be allowed if an owner of assessed property is precluded by applicable state or federal law, rule, or regulation from using the services provided by the district. This section shall be applicable only to
petitions filed in accordance with the provisions of this section on or before March 31, 1999.

ARTICLE 4 - DISSOLUTION

(a) Dissolution of a district may be initiated:

(i) By a petition signed by not less than twenty-five percent (25%) of the voters owning not less than twenty-five percent (25%) of the assessed valuation of property within the district, requesting dissolution of the district, filed with the county commissioners. The petition process shall be governed by W.S. 22-29-105 through 22-29-108;

(ii) By resolution of the district directors filed with the county commissioners when the district directors determine that it is in the best interest of the inhabitants of the district that the district be dissolved and liquidated;

(iii) By resolution of the county commissioners if:

(A) Either:

(I) The district at the time of the regular district election has not elected district directors as required by the principal act; or

(II) The territory within the district is uninhabited; and

(B) The county commissioners determine that it is in the best interest of the people of the county that the district be dissolved and liquidated.

(iv) Within five (5) days after a petition is filed or a resolution of a county commission is adopted under this section, a copy shall be filed with the district secretary, if any, or with any other district officer who can with reasonable diligence be located;

(v) If there are no qualified district director members, the county commissioners shall act as or appoint a board of trustees to act in behalf of the district.
(b) Dissolution of a district shall be initiated by resolution of the board of county commissioners if the director of the department of audit has notified the board of county commissioners of the district's failure to comply with the reporting requirements of W.S. 9-1-507, and the district has failed to comply with W.S. 9-1-507(a)(vii) by December 30 of that same calendar year. The board of county commissioners shall declare the board of directors vacant under W.S. 22-29-201, and shall fill the board by appointment under W.S. 22-29-202 for the purpose of dissolving the district.

22-29-402. Findings of fact by district directors.

(a) When dissolution proceedings have been initiated, the district directors shall make findings of fact which shall include:

(i) The amount of each outstanding bond, coupon and other indebtedness, with a general description of the indebtedness and the name of the holder and owner of each, if known;

(ii) A description of each parcel of real property and interest in real property and, if the property was acquired for delinquent taxes or assessments, the amount of those taxes and assessments on each parcel of property;

(iii) Uncollected taxes, assessments and charges levied by the district and the amount upon each lot or tract of land;

(iv) A description of the personal property and of all other assets of the district;

(v) The estimated cost of dissolution.

(b) The district directors shall propose a plan of dissolution and liquidation.

(c) Within thirty (30) days after initiation of the dissolution proceeding, the findings of fact and the proposed plan of dissolution and liquidation shall be filed in the office of the county clerk and shall be available for inspection by any interested person.

22-29-403. Plan for dissolution and liquidation.
The plan of dissolution and liquidation may include provisions for transfer and conveyance of all assets of the district to any other district or to the county or counties where the district is located which have the authority and agree to assume the outstanding indebtedness of the dissolving district, if any, and to continue to furnish similar services to the inhabitants of the district.

22-29-404. Election on dissolution; consent of creditors; content of notice.

(a) Within ten (10) days after the district directors file the plan of dissolution and liquidation required by W.S. 22-29-402, the district directors shall call an election to be held not less than ninety (90) days nor more than one hundred twenty (120) days after the filing of the plan of dissolution or liquidation for the purpose of submitting to the voters of the district the question of whether the district shall be dissolved, its indebtedness liquidated and its assets disposed of in accordance with the plan proposed. No election shall be called until the consent of all known holders of valid indebtedness against the district is obtained or provision is made in the plan for payment of the non-consenting holders. The notice of the election shall contain a brief summary of the plan of dissolution and liquidation and state that the plan of dissolution is available for examination at the office of the county clerk.

(b) This election shall be conducted in accordance with W.S. 22-29-113 through 22-29-117.

22-29-405. Trustees for dissolved district; records to county clerk; limitation on further elections.

(a) Upon canvassing the vote after the election, if it appears that a majority or more of the votes on the proposition approve dissolution, the district directors shall declare the district dissolved. The directors shall thereupon constitute a board of trustees under the supervision of county commissioners, who shall pay the debts or procure releases thereof and dispose of the property of the district. If the dissolved district was located wholly within the limits of one (1) county, the board of the dissolving district may designate the county commissioners as the board of trustees for the purpose of winding up the affairs of the district. If a majority of
the votes cast on the proposition is against dissolution, the district directors shall declare the proposal defeated and cause the result of the vote to be made a part of the records of the district. In either case, the results of the election shall be certified to the county commissioners immediately after the canvass of the vote.

(b) If dissolution is approved after the affairs of the district have been fully settled all books and records of the district shall be deposited by the board of trustees in the office of the county clerk of the county in which the greatest area of the district was located. At the same time, the board of trustees shall execute under oath and file with the county commissioners a statement that the district has been dissolved and its affairs liquidated. From the date of the statement, the corporate existence of the district is terminated for all purposes.

(c) If a majority of the votes cast on the proposition are against dissolution, no further election for dissolution shall be called by the directors, upon petition or upon a resolution of the commissioners, prior to the expiration of one (1) year from the date of the election on dissolution.

22-29-406. Power of trustees to convey assets.

(a) The board of trustees may convey to another district all assets of the dissolving district:

(i) If the other district assumes all debts and obligations of the dissolving district and undertakes to continue to furnish the service provided by the dissolving district pursuant to the plan of dissolution and liquidation; and

(ii) If the written consent of all the known holders of valid indebtedness against the district has been obtained, or provision has been made in the plan for payment of the non-consenting holders.

22-29-407. Disposition of assets.

(a) Any surplus funds remaining to the credit of the district, after payment of the indebtedness of the district, shall be transferred to the county treasurer. If the assets of the district are insufficient to pay the
indebtedness, the board of trustees shall levy taxes, within the limits of the authority of the district, for the liquidation of the indebtedness.

(b) Notwithstanding subsection (a) of this section, if the property of a district is located within the corporate limits of a city, the property shall, upon dissolution of the district, vest in the city in which located and the property of the district lying outside the corporate limits of any city shall vest in the county until the formation of a city embracing the territory, at which time it shall vest in the city.

(c) In each year that the county receives surplus funds to the credit of the district under subsection (a) of this section, any funds in the account of the district on June 30, in excess of six thousand dollars ($6,000.00) retained by the county for administration, shall be certified to the county assessor and shall be disposed of as provided under one (1) of the following procedures, as selected by the county assessor:

(i) The funds may be offset against that portion of the levies of taxing units levied against the property values of property within the dissolved district. If the funds are offset as provided under this paragraph, the funds shall be distributed to each taxing unit in the amount of that taxing unit's offset;

(ii) The amount may be credited to each property appearing on the tax roll for the year for which the credit applies within the dissolved district on the basis of current assessed value. If the surplus funds are distributed under this paragraph, the surplus funds shall be deposited in the un-segregated tax collections account established and distributed in the same manner as other funds in that account.

22-29-408. Dissolution without election.

(a) The election required by W.S. 22-29-404 shall be dispensed with and the county commissioners shall declare the district dissolved if the county commissioners find that:

(i) Dissolution is in the interest of the people of the county; and
(ii) At least one (1) of the following:

(A) The territory within the affected district is uninhabited;

(B) The district has failed regularly to elect district board members in accordance with the principal act of the district; or

(C) That the district is not active and that there is no need for the district.

(b) The election required by W.S. 22-29-404 shall be dispensed with and the board of county commissioners shall declare the district dissolved if the director of the department of audit has notified the board of county commissioners of the district's failure to comply with the reporting requirements of W.S. 9-1-507, and the district has failed to comply with W.S. 9-1-507(a)(vii) by December 30 of that same calendar year.

No person shall solicit or receive a payment or contribution from an organization prohibited from making contributions under this subsection.

(d) The secretary of state shall prescribe and furnish the forms for reporting receipts and expenditures for special district ballot proposition elections together with written instructions for completing the form and a warning that violators are subject to civil and criminal charges. The forms along with instructions and warning shall be distributed to the county clerk and shall be given by the county clerk to each political action committee upon formation.

If any code requirements for federal certification conflict with the code of any other state or local governmental entity, the code required for federal certification shall prevail.
(c) The department of health shall promulgate rules and regulations for all aspects of construction and remodeling of health care facilities except electrical installation. For aspects of construction and remodeling included in codes adopted by the council pursuant to W.S. 35-9-106, the rules and regulations shall be based on and not exceed the standards of these codes except where federal certification requirements dictate otherwise.

(i) The law enforcement agency acting as an emergency responder shall keep an accurate account of the expenses incurred in carrying out the remediation and shall report the actions and present a statement of the expenses incurred and the amount received from any salvage sale to the court for approval and allowance;

(ii) The court shall examine, correct, if necessary, and allow the expense account to the extent the expenses exceed those recovered from the party responsible for the clandestine laboratory operation. If the owner did not know or could not with reasonable diligence have known of the clandestine laboratory operation, the amount recoverable from the owner shall be limited to one percent (1%) of the fair market value as determined by the county assessor of that portion of the building, structure or land declared uninhabitable by the incident commander;

(iii) The amount allowed by the court constitutes a lien against the real property on which a clandestine laboratory operation incident occurred or was situated. If the amount is not paid by the owner within six (6) months after the amount has been examined and approved by the court, the real estate may be sold under court order by the county sheriff in the manner provided by law for the sale of real estate upon execution;

(iv) The proceeds of the sale shall be paid into the treasury of the governing body of the law enforcement agency acting as the emergency responder. If the expenses further exceed amounts available under W.S. 1-40-118(g)(i)(C), the emergency responder may apply for reimbursement from the clandestine laboratory remediation account created pursuant to W.S. 35-9-159(f).

Each party to mediation shall bear his own costs and expenses, including a proportionate share of the fees of the mediator.

(c) In the event that the attorney general or county or municipal attorney prevails in a civil action for reimbursement under this act, the court shall award costs of collection including reasonable attorney's fees, investigation expenses and litigation expenses.

(d) Any person who receives remuneration for the emergency response expenses pursuant to any other federal or state law shall be precluded from recovering reimbursement for those expenses under this act. Nothing in this act shall otherwise affect or modify in any way the obligations or liability of any person under any other provision of state or federal law, including common law, for damages, injury or loss resulting from the release of any hazardous material or for remedial action or the expenses of remedial action for the release.

35-9-159. Exceptions to reimbursements; exception to act; clandestine laboratory remediation fund.

capability to respond to emergency releases of hazardous materials that may be present at the site of the private industry or the responsible party and incident commander have determined that the local or regional response team is no longer required and should be released. The exemption shall not apply if emergency responders responded to a release of hazardous materials at the request of the on-site private industry where the emergency occurred.

(d) Notwithstanding any other provision of this act, if a local law enforcement agency acting as an emergency responder does not find an immediate and substantial threat to public health when responding to a clandestine laboratory operation incident the local law enforcement agency discovering the clandestine laboratory operation shall provide written notice of the discovery to the owner of the property. The owner of the property shall have ninety (90) days to remediate the property in accordance with standards established pursuant to W.S. 35-9-153(h). If the property is not remediated within ninety (90) days of receipt of notice pursuant to this subsection, the law enforcement agency acting as an emergency responder may take remediation action as provided in rules authorized under W.S. 35-9-153(h). If the owner is unable to complete the remediation within ninety (90) days, the owner may request an extension of time from the local law enforcement agency which shall grant the extension if it finds:

(ii) The owner has a practical time schedule to complete the remediation.

(e) If the law enforcement agency denies an extension pursuant to subsection (d) of this section, the owner may appeal to the district court within sixty (60) days of the issuance of the denial. The law enforcement agency's authority to take remediation action shall be stayed while the appeal is pending.

(f) There is created the clandestine laboratory remediation account to be administered by the attorney general. A local law enforcement agency acting as an emergency responder may apply for reimbursement from the account for expenses incurred in responding to a clandestine laboratory operation incident as provided in W.S. 35-9-158(a)(vi).

35-9-201. Applicability; powers of districts generally.

This act shall apply to a fire protection district created under the provisions of this act or under the provisions of article 1, chapter 45, Wyoming Compiled Statutes, 1945, as amended. Such fire protection district is hereby authorized to provide protection from fire and other public safety emergencies for all persons and property within its boundaries, and to contract, including mutual aid agreements, to give or receive such protection to or from one (1) or more other municipal corporations, other fire protection districts, private organizations or individuals. No fire protection district is liable for damages to
persons or property resulting from the operation or presence of fire fighting equipment outside the district boundaries pursuant to an agreement or contract under this section. Entry into an agreement or contract pursuant to this section does not create a new or reorganized taxing entity as provided in W.S. 39-13-104(m).

(a) The election of the initial board of directors shall be held by the board of county commissioners at the same time as the election for formation of the district, or at the next general election in the case of a district created pursuant to W.S. 35-9-213. There shall be elected a board of directors consisting of three (3) members who are residents living within the district who shall serve without compensation. Within ten (10) days after each election the board shall meet and select a president and a secretary-treasurer. The first elected board shall serve until the next director election as provided in W.S. 22-29-112. At the first director election, one (1) member of the board shall be elected for two (2) years, and two (2) members for four (4) years, for staggered terms. Thereafter, directors shall be elected for four (4) year terms. Biennial elections shall be held in accordance with the Special District Election Act of 1994.

(b) The board is authorized to:

(ii) To divide the district into director districts and provide for the election of a director from each district to be chosen by the voters; and

(iii) To fix the initial term of the additional directors so that the term of not more than three (3) directors shall expire in any one (1) year.

(c) Director districts and biennial elections shall be approved by the board of county commissioners of the county in which the district is located.

The assessor shall, at the time of making the annual assessment of his county, also assess the property of each fire protection district in his county and return to the county assessor at the time of returning the assessment schedules, separate schedules listing the property of each fire protection district assessed by him. The separate schedules shall be compiled by the county assessor, footed, and returned to the board of county commissioners as provided for other assessment schedules.

There shall be no limit on the assessment for payment of principal and interest on bonds approved by the board of and the electors of the districts as provided in W.S. 35-9-204. The taxes and assessments of all fire protection districts shall be collected by the county collector at the same time and in the same manner as state and county taxes are collected. The assessment and tax levied under the provisions of W.S. 35-9-201 through 35-9-209 shall not be construed as being a part of the general county mill levy.

(c) A fire protection district formed pursuant to this act may, as a condition for a position with the district, require applicants to submit to fingerprinting in order to obtain state and national criminal history record information.
35-9-204. Issuance of bonds; authority of board to submit questions to electors; restriction upon amount; interest; purpose.

The board of directors of a fire protection district is authorized, whenever a majority thereof so decide, to submit to the electors of the district the question whether the board shall be authorized to issue the coupon bonds of the district in a certain amount, not to exceed four percent (4%) of the assessed valuation of taxable property in the district, and bearing a certain rate of interest, payable and redeemable at a certain time, not exceeding twenty-five (25) years for the purchase of real property, for the construction or purchase of improvements, and for equipment for fire protection district purposes.

The funds shall be controlled by the Wyoming volunteer firemen's pension board and administered by the director of the Wyoming retirement system. All expenses of administration shall be paid by the account. Disbursements from the account shall be made only on duly authorized vouchers signed by the director of the retirement account in his capacity as chairman of the board and any member of the board, and presented to the state auditor for payment.

(b) No volunteer fireman shall participate as a member of the volunteer firemen's pension account established under W.S. 35-9-601 through 35-9-615 and as a member of the firemen's pension account under W.S. 15-5-201 through 15-5-209 or 15-5-401 through 15-5-422 if participation is based upon covered service for the same fire department.

(e) A volunteer fireman shall become a participating member in the pension plan under this section for each month there is contributed by or on behalf of the member an amount of twelve dollars and fifty cents ($12.50) per month. For the purpose of eligibility for benefits under subsections (b), (c) and (g) of this section, a volunteer fireman shall become a participating member beginning with the first month following the month in which the required monthly payment and any required application for participation is actually received by the Wyoming retirement system at its office in Cheyenne. For the purpose of continuing as a participating member, subsequent monthly payments must be received by the Wyoming retirement system at its offices in Cheyenne no later than three (3) months following the close of the calendar month for which they are applicable. With the consent of and upon any terms and conditions established by the board, payments may be accepted at an earlier or later date. The board shall maintain full and complete records of the contributions made on behalf of each participating member and on request shall furnish any participating member a statement showing the amounts of contributions and the dates for which contributions were received. On the death or retirement of any participating member, his entry age shall be determined by the board to be the earliest date from which contributions have been continuously received by the board for the member. If contributions have varied in amount, the board may make appropriate adjustments in the benefits awarded. In making any adjustment, the board shall be guided by sound actuarial practice in order that substantial equity may be afforded to members of the plan. No penalty shall result from the transfer of a participating member from one (1) volunteer fire department to another in Wyoming, so long as payments are kept current.

(f) Withdrawal from plan. - A participating member may withdraw from the plan and in such event he shall be paid an amount equal to the amount contributed into his account
together with interest thereon at the rate of three percent (3%) per annum compounded annually.

(g) Upon the death of any participating member, a death benefit shall be paid from the deceased member's account in the following manner and amount:

(i) A lump-sum payment of five thousand dollars ($5,000.00) or the amount in the deceased member's account, whichever is greater, to the estate of a deceased member without a survivor eligible for a benefit under subsection (b) or (c) of this section;

(ii) If a spouse who is eligible to receive a benefit under subsection (b) of this section dies, an amount equal to five thousand dollars ($5,000.00) less the total amount of benefits received under subsection (b) of this section or the amount remaining in the deceased member's account, whichever is greater, shall be paid to the spouse's estate unless the spouse is survived by a person eligible to receive a benefit under subsection (c) of this section;

(iii) When the last person under the age of twenty-one (21) years who is eligible for the benefit provided by subsection (c) of this section dies or attains the age of twenty-one (21), an amount equal to five thousand dollars ($5,000.00) less the total amount of benefits received under subsections (b) and (c) of this section or the amount remaining in the deceased member's account, whichever is greater, shall be paid in equal shares to each of the children alive on that date;

(iv) For members contributing five dollars ($5.00) per month before July 1, 1989, the appropriate benefit shall be determined by substituting two thousand five hundred dollars ($2,500.00) for five thousand dollars ($5,000.00) in paragraphs (i) through (iii) of this subsection.

(h) Retired recipients of the account and their survivors shall receive any benefit increases provided in subsection (d) of this section.

(j) The board shall authorize benefit payments from the account in accordance with qualified domestic relations orders pursuant to W.S. 9-3-426.
(k) Effective July 1, 2001, and each July 1 thereafter, any retirement or survivor benefit received by eligible individuals under this article shall be adjusted as follows:

(i) Not later than July 1, the board shall determine the percentage increase in the cost of living for the preceding calendar year. The percentage increase in the cost of living for a calendar year is equal to the annual percentage increase in the cost of living as of the immediately preceding calendar year, as shown by the Wyoming cost-of-living index established by the division of economic analysis, department of administration and information;

(ii) Subject to the limitation imposed under paragraph (vi) of this subsection, the benefits existing on each July 1 for each eligible individual may be increased by an amount not to exceed the greater of the percentage increase in the cost of living as determined by the board under paragraph (i) of this subsection or a percentage adjustment to a level the system's actuary determines to be actuarially sound pursuant to paragraph (v) of this subsection;

(iii) The amount of any percentage increase in the cost of living which exceeds the percentage adjustment under paragraph (ii) of this subsection shall to the extent determined actuarially sound by the system's actuary, be accumulated and added to the percentage increases in the cost of living for future years;

(iv) Individuals who have been receiving applicable benefits for at least two (2) years including survivors who received benefits during this period either alone or in combination with a member, are eligible for the benefit adjustment under this subsection;

(v) An increase in benefits under this subsection is effective only upon a determination by the actuary for the Wyoming retirement system that the increase is actuarially sound. As required under W.S. 9-3-419(b)(v), the system actuary shall annually report its determination under this paragraph to the governor and the joint appropriations interim committee; and
(vi) The total benefit adjustment under this subsection shall not exceed three percent (3%) in any one (1) year.

35-9-609. Death benefits in addition to other benefits.

All death benefits received under this act [35-9-601 through 35-9-615] shall be in addition to and will be payable after the application of workmen's compensation benefits which are payable to volunteer firemen under other provisions of Wyoming law.

35-9-610. Board; established; nomination; appointment; terms and qualification of members.

There is established a volunteer firemen's pension board to administer the volunteer firemen's pension account. The board shall consist of six (6) members who shall be appointed by the governor for staggered terms of three (3) years. Appointments shall be made from nominees recommended to the governor by the Wyoming state firemen's association. The nominees shall be volunteer firemen who have a minimum of five (5) years service as members of volunteer fire departments in the state of Wyoming. The governor may remove any board member as provided in W.S. 9-1-202.

35-9-611. Board; chairman; compensation of members; powers and duties.

(a) The director of the Wyoming retirement system shall act as an ex officio chairman of the board and shall have a vote. Members of the board shall serve without compensation, but actual and reasonable expenses of the members in attending meetings and in representing the board shall be reimbursed from the account. The volunteer firemen's pension board shall have full authority to adjust claims made by firemen and to waive or alter specific requirements relating to benefits under this pension program, but under no circumstances may it make a general increase in benefits. The board shall have the power to make rules and regulations governing its operation. It shall have the power to investigate claim applications and to conduct hearings and receive evidence, and to act in quasi-judicial capacity.

(b) The board shall also have specific authority in special cases to permit individual participating members to
retire from active service with their departments while continuing monthly pension payments until they reach the pension plan retirement age.

(c) The board shall have authority to permit the suspension of payments in individual deserving cases with a commensurate reduction in benefits paid under the plan.

35-9-612. Board; hearings.

The board shall procure a written transcript of all testimony at all hearings and shall permit persons petitioning the board for action to appear before it with or without counsel and with witnesses and shall provide petitioners the power to subpoena witnesses to testify in their behalf. The taking of evidence shall be summary, giving a full opportunity to all parties to develop the facts fully.

35-9-613. Board; appeals.

Appeal from the decision of the volunteer firemen's pension board shall be heard in a trial de novo in the district court in the county where the volunteer fireman resides. The district court may rule upon the decision of the volunteer firemen's pension board as to whether the decision was arbitrary or involved an abuse of discretion on the part of the board and based on such consideration may reverse or affirm the decision of the board.

35-9-614. Insurance on members.

The board shall have authority to purchase private insurance on any of the members covered by the account when in its discretion it deems it to the best interest of the account to do so.

35-9-615. Adjustment of benefits in case of impairment of funds.

If at any time in the future the net assets of the account become actuarially impaired, the board may adjust the benefits provided pro rata until such impairment is removed.

No more than twenty-five percent (25%) of the cigarettes tested in a test trial in accordance with this section shall exhibit full length burns. Forty (40) replicate tests shall comprise a complete test trial for each cigarette tested;

The performance standard required by this section shall be applied only to a complete test trial;

Written certifications shall be based upon testing conducted by a laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization ("ISO"), or other comparable accreditation standard required by the state fire marshal;

Laboratories conducting testing in accordance with this section shall implement a quality control and quality assurance program that includes a procedure that will determine the repeatability of the testing results. The repeatability value shall not be greater than nineteen hundredths (0.19);

This section does not require additional testing if cigarettes are tested consistent with this act for any other purpose;

Testing performed or sponsored by the state fire marshal to determine a cigarette’s compliance with the performance standard required by this section shall be conducted in accordance with this section.
(b) Each cigarette listed in a certification submitted pursuant to W.S. 35-9-804 that uses lowered permeability bands in the cigarette paper to achieve compliance with the performance standard set forth in this section shall have at least two (2) nominally identical bands on the paper surrounding the tobacco column. At least one (1) complete band shall be located at least fifteen (15) millimeters from the lighting end of the cigarette. Cigarettes on which the bands are positioned by design shall have at least two (2) bands fully located at least fifteen (15) millimeters from the lighting end and at least ten (10) millimeters from the filter end of the tobacco column. For nonfiltered cigarettes the bands shall be at least ten (10) millimeters from the labeled end of the tobacco column.

(c) If the state fire marshal determines that a cigarette cannot be tested in accordance with paragraph (a)(i) of this section, the manufacturer shall propose a test method and performance standard. If the state fire marshal approves the proposed test method and determines that the performance standard proposed by the manufacturer is equivalent to the performance standard prescribed in paragraph (a)(iii) of this section, that test method and performance standard may be used to certify the cigarette pursuant to W.S. 35-9-804.

(d) The state fire marshal shall authorize a manufacturer to employ an alternative test method and performance standard to certify that cigarette for sale in this state if the fire marshal determines that:

(i) Another state has enacted reduced cigarette ignition propensity standards that include the proposed alternative test method and performance standard;

(ii) The other state’s testing method and performance standard are the same as those adopted pursuant to paragraph (a)(i) of this section;

(iii) The officials responsible for implementing the other state’s requirements have approved the proposed alternative test method and performance standard for a particular cigarette as meeting the fire safety standards of that state’s law or regulation under a legal provision comparable to this section; and
(iv) There is no reasonable basis to reject the alternative testing method.

(e) Manufacturers shall maintain copies of reports of all tests conducted on all cigarettes offered for sale for three (3) years and shall make copies available upon written request by the state fire marshal or attorney general. Any manufacturer failing to make copies of the requested reports available within sixty (60) days of receipt of the request shall be subject to a civil penalty not to exceed ten thousand dollars ($10,000.00) for each day after the sixtieth day that the manufacturer fails to make copies available.

(e) For each cigarette listed in a certification, a manufacturer shall pay a fee to two hundred fifty dollars ($250.00) payable to the state fire marshal for processing,
testing, enforcement and oversight activities required by this act to be deposited in the general fund.

(f) If a cigarette is certified and is subsequently changed in a manner that is likely to alter its compliance with the reduced cigarette ignition propensity standards required by this act, the cigarette shall not be sold or offered for sale in this state until the manufacturer retests the cigarette in accordance with the testing standards consistent with the provisions of this act and maintains the records of that retesting as required by this act. Any altered cigarette which does not meet the performance standard set forth in this act shall not be sold in this state.

(a) Cigarettes certified by a manufacturer in accordance with W.S. 35-9-804 shall be marked to indicate compliance with the requirements of W.S. 35-9-803. (ii) To recover any costs or damages suffered by the state because of a violation of this act, including
enforcement costs relating to the specific violation and attorney’s fees.

Upon obtaining judgment for injunctive relief under this section, the state fire marshal or attorney general shall provide a copy of the judgment to all wholesale dealers and agents to which the subject cigarette has been sold.

35-9-807. Inspection and enforcement.

(a) The department of revenue may inspect cigarettes to determine if the cigarettes are marked as required by W.S. 35-9-805. If the cigarettes are not marked as required, the department of revenue shall notify the state fire marshal.

(b) To enforce the provisions of this act, the attorney general, the department of revenue and the state fire marshal, their agent and other law enforcement personnel are authorized to examine books, papers, invoices and other records of any person or entity possessing, controlling or occupying any premises where cigarettes are placed, held, stored, sold or offered for sale.

The interstate compact for the prevention and control of forest fires as contained herein is hereby enacted into law and entered into on behalf of this state with any and all other states legally joining therein in a form substantially as follows:

INTERSTATE COMPACT FOR THE PREVENTION AND CONTROL OF FOREST FIRES
ARTICLE I

Purpose

The purpose of this compact is to promote effective prevention and control of forest fires in the great plains region of the United States by the maintenance of adequate forest firefighting services by the member states, and providing for reciprocal aid in fighting forest fires among the compacting states of the region, including South Dakota, North Dakota, Wyoming, Colorado and any adjoining state of a current member.

ARTICLE II

Operative Date

This compact is operative immediately as to those states ratifying it if any two (2) or more of the member states have ratified it.

ARTICLE III

State Compact Administrator; Forest Fire Plan

(a) In each state, the state forester or officer holding the equivalent position who is responsible for forest fire control may act as compact administrator for that state, consult with like officials of the other member states, and implement cooperation between the states in forest fire prevention and control. The compact administrators of the member states may organize to coordinate the services of the member states and provide administrative integration in carrying out the purposes of this compact.

(b) Each member state may formulate and put in effect a forest fire plan for that state.

ARTICLE IV

Aid to Other Member States

If the state forest fire control agency of a member state requests aid from the state forest fire control agency of another state in combating, controlling, or preventing forest fires, the state forest fire control agency of that
state may render all possible aid to the requesting agency, consonant with the maintenance of protection at home.

ARTICLE V

Privileges; Liability; Claims and Reimbursement

(a) If the forces of any member state are rendering outside aid pursuant to the request of another member state under this compact, the employees of the state shall, under the directions of the officers of the state to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the state to which they are rendering aid.

(b) No member state or its officers or employees rendering outside aid pursuant to this compact is liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection with rendering outside aid.

(c) All liability, except as otherwise provided in this compact, that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

(d) Any member state rendering outside aid pursuant to this compact shall be reimbursed by the member state receiving the aid for any loss or damage to, or expense incurred in the operation of, any equipment used in answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of employees and equipment incurred in connection with the request. However, nothing in this compact prevents any assisting member state from assuming the loss, damage, expense, or other cost, from loaning the equipment, or from donating the services to the receiving member state without charge or cost.

(e) Each member state shall assure that workers compensation benefits in conformity with the minimum legal requirements of the state are available to all employees
and contract firefighters sent to a requesting state pursuant to this compact.

(f) For the purposes of this compact, the term "employee" includes any volunteer or auxiliary legally included within the forest firefighting forces of the aiding state under the laws of the aiding state.

(g) The compact administrators may formulate procedures for claims and reimbursement under the provisions of this article in accordance with the laws of the member state.

(a) Ratification of this compact does not affect any existing statute so as to authorize or permit curtailment or diminution of the forest firefighting forces, equipment, services or facilities of any member state.

(b) Nothing in this compact authorizes or permits any member state to curtail or diminish its firefighting forces, equipment, services or facilities. Each member state shall maintain adequate forest firefighting forces and equipment to meet the demands for forest fire protection within its borders in the same manner and to the same extent as if the compact were not operative.

(c) Nothing in this compact limits or restricts the powers of any state ratifying the compact to provide for the prevention, control and extinguishment of forest fires, or to prohibit the enactment or enforcement of state laws, rules or regulations intended to aid in the prevention, control and extinguishment of forest fires in the state.

(d) Nothing in this compact affects any existing or future cooperative relationship or arrangement between the United States forest service and a member state or states.

Representatives of the United States forest service may attend meetings of the compact administrators.
ARTICLE VIII

Operation of Articles IV and V

ARTICLE IX

Withdrawal from Compact

This compact shall continue in force and remain binding on each state ratifying it until the legislature or the governor of the state takes action to withdraw from the compact. Such action is not effective until six (6) months after notice of the withdrawal has been sent by the chief executive of the state desiring to withdraw to the chief executive of all states then party to the compact.

(b) The penalty imposed under subsection (a) of this section applies to any railroad corporation failing to comply with W.S. 37-9-311.

37-9-303. Fireguards; liability for damages.

(a) Every railroad corporation operating its line of road, or any part of it, within this state, shall be liable for all damages by fire resulting from or caused by operating any such line of road together with suppression
